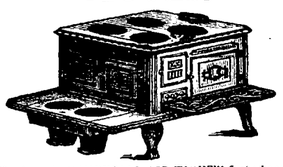
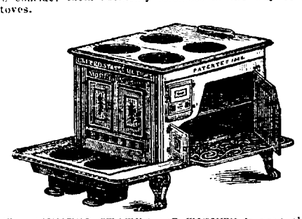
B. W. OAKLEY,

THANKFUL for the favors of the past, would respectfully inform his old customers and the public generally that his Fall and Winter supply has in part arrived, and is still coming; so that by the close of navigation *all* demands for the season can be promptly filled.

STOVES.



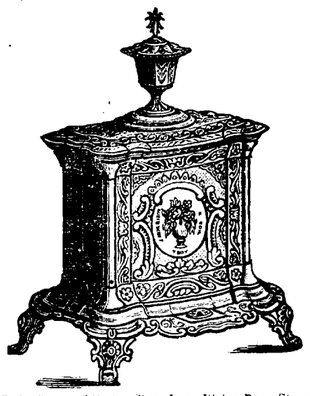
We place the "IMPERIAL AIR TIGHT" first; because we consider them decidedly foremost in the way of all stoves.



The "UNITED STATES AIR TIGHT" is next, tho' many consider them equal, if not superiot to those above—and with them may be classed the Washington and Troy Air Tights and the Quackenbos Air Tights, of Albany.

PREMIUM STOVES.

Among the different kinds of Premium Cooking Stoves we have the "Troy Victory," to the excellent qualities of which all who have ever tried them will readily attest. We selected them as the best premium stove in market, and the increased demand for them induced us to bring on a large assortment. We have also the common premiums from Buffalo and Cincinnati, and last though not least, the "*Farmer*," with no roses or superfluous ornaments, but so well recommended that any one wishing a stove can take it, and bring it back again if it does not work well. Last, & least in the Cooking line stands the great "Hathaway," of Dayton, which we keep on hand for the especial benefit of those who prefer this to a better article.



Parlor Stoves of Cast or Sheet Iron, Dining Room Stoves Shop and Store Room Stoves of all varieties and sizes from a meeting house to a 10 by 12.

In connection with our *Stove* trade we have added a small but well selected assortment of

POETRY.

CHARITY.

In the hour of keenest sorrow—
In the hour of deepest woe—
Wait not for the coming morrow,—
To the sad and sorrowing go;
Make it thy sincerest pleasure,
To administer relief.
Freely opening thy treasure,
To assuage a brother's grief.

Go and seek the orphan sighing;
Seek the widow in her tears;
As on mercy's pinions flying,
Go dispel their darkest fears:
Seek the stranger, sad and weary.
Pass not on the other side,
Though the task be sad and dreary,
Heeding not the scorn of pride.

Go, with manners unassuming,
In a meek and quiet way.
O'er the father ne'er presuming,
Though thy brother sadly stray;
'Tis a Saviour's kind compassion,
'Tis his righteousness alone,
All unmerited salvation,
That around thy path hath shone.

When thy heart is warmly glowing
With the sacred love of prayer,
Be thy works of kindness flowing.
Not as with a miser's care;
Duty e'er should be thy watchword.
Pity rop a balmy tear;
Always toward the fallen cherish
Sympathy and love sincere.

Elizabeth Blackwell, M. D.

The public, though in newspapers, has been pretty generally informed that this lady was a regular student of Geneva Medical College, and received the diploma of that institution at its last commencement. As she is the first medical doctor of her sex in the United States, the case is, naturally enough, one of those questionable matters upon which there must be a great variety of opinions, and the public sentiment is, besides, influenced by the partial and inaccurate statements of facts and conjectures which usually supply the place of correct information.

Miss Blackwell s twenty-eight years of age. She was born in the city of Bristol, England. Her father settled with his family in New York, when she was about eleven years old. After a residence there of five or six years, he failed in business, and removed to Cincinnati. A few weeks after his arrival there he died, leaving his widow and nine children in very embarrassed circumstances.—Elizabeth, the third daughter, was then seventeen years old, and assisted two of her sisters in teaching a young ladies' seminary. By the joint efforts of the eldest children, the young members of the family were supported and educated, and a comfortable homestead on Walnut Hill was secured for the family.—The property which, in the midst of their first difficulties, they had the forecast to purchase, had already quadrupled the price which it cost them. I give this fact for the illustration of character which it affords.

The enterprise of these young ladies is still farther indicated by the next steps which they severally took. Anna, the eldest, some years ago took up her residence in the city of New York, where she has until lately worked at the trade of periodical authorship. French translation, and composer of music. She is now in England, under an engagement with a publisher there to translate the whole of Fourier's works. She was selected for this task for her very high ability in French translation, and the excellence of her English style. Another sister, Emily, is teaching a boy's school in Cincinnati, preparing them for college in the departments of mathematics and the classic languages. And Elizabeth, after two or three years hard labor in North and South Carolina, an I two years more, exclusively devoted to the study of medicine, in Philadelphia and Geneva, has a medical diploma in her pocket.

About five years ago she first entertained the idea of devoting herself to the study of medicine. Having taken the resolution, she went vigorously to work to effect it. She commenced the study of Greek, and persevered until she could read it satisfactorily, and revived her Latin by devoting three or four hours a day to it, until she had both sufficiently for all ordinary and professional progress.—French she had taught, and studied German to gratify her fondness for its modern literature. The former she speaks with fluency, and translates the latter elegantly, and can manage to read Italian prose pretty well.

Early in the spring of 1844, for the purpose of making the most money in the shortest time, she set out for North Carolina, and after some months teaching French and music, and reading medicine with Dr. John Dickson, of Ashville, she removed to Charleston. Here she taught music alone, and read industriously under the direction of Dr. Samuel H. Dickson, then a resident of Charleston, and now professor of practice in the University of New York.

Two years ago she came to Philadelphia for the purpose of pursuing the study. That summer Dr J. M. Allen, professor of anatomy, afforded her excellent opportunities for dissection in his private anatomical rooms.—The winter following she attended her first full course of lectures at Geneva. The next summer she resided at the Blockley Hospital, Philadelphia, where she had the kindest attentions from Dr. Benedict, the principal physician, and the very large range for observation which its great variety and number of cases afford. Last winter she attended her second course at Geneva, and graduated regularly at the close of the session. Her thesis was upon ship fever, which she had ample opportunities for observing at Blockley. It was so ably written that the faculty of Geneva determined to give it a publication.

It is in keeping with my idea of this story to add that the proceeds of her own industry have been adequate to the entire expenses on her medical education—about eight hundred dollars.

In a few weeks she will leave for Paris, with the design of remaining there one or two years, hoping to obtain there still greater facilities for the further study of her profession than this country affords; especially in the department of surgery, which she has had but little opportunity to see.

She will return when this purpose is accomplished, to practice medicine in all its branches, and will probably settle in the city of New York.—*National Era.*

A Solemn Thought.—When we look abroad over the great potato patch of the world, we see innumerable hills filled to overflowing with the very smallest kind of "taters," and a feeling of sadness comes over us at the thought that they'll never get any larger!

Let them fight—Honest men will get their dues.

The war between the factions of the whig party is raging with great fury in New York, and Philadelphia. We see that in little Delaware, too, Clayton's pocket state, they are denouncing him and the administration.

In New York city the war almost equals the Forrest and Macready war. The Express, one of the truest whig papers in the state, says:

"The first thing that strikes an old working whig here, in looking over these appointments, is, with one exception, the utter inattention of the cabinet officers, who have advised these appointments, not only to the wants and wishes of the working whigs of the city, but their inexcusable neglect of the whigs who, for ten years past have done the work here in New York, in fair weather and in foul, or who, when the whig party was at the lowest state of depression, have freely given not only their labor, but their means.

* * * * * * *

"If men eminent for their sacrifices and labors are thrust aside to give place to candidates unknown till the victory is certain, and its celebration is over, and if appointments are systematically made upon such unprincipled principles—it is as vain for a whig editor or a whig speaker to attempt to arrouse whigs, when their votes are needed, as would be to print a daily journal or to make an oration upon the crusted shores of the Dead Sea, or in the wilds of Oregon."

The Express proceeds to pour out its discontent in the following paragraph which relates to Gov. Young.

"For some weeks past, the merchants and the politicians of this city have been in a fever of excitement lest an ex-Governor of this state unknown to our people, alien to all their associations, and against whom intense prejudices now exist, should be appointed Collector of this port. Indeed the appointment if stopped at all, has only been stopped by the most extraordinary exertions, and by the assumption of responsibilities on part of gentlemen who ought never to have been called upon to take them. But the telegraph wires have been watched with intensity of interest and excitement by hundreds in nervous apprehensions, lest so great an error might be committed. Whether we are safe from it now or not, nobody can tell, as an atmosphere exists in Washington, around the Cabinet, not of New York creation, so irresponsible to the public, and so devoted to self that nothing good can come from it."

This Ex-Governor of New York, "unknown to the people!" has been appointed Sub-Treasurer. What is to be done? The Express tells the the President that unless the offices are given to those who work for the party, the the whigs will refuse to vote herafter! What a catastrophe!—*Detroit Free Press.*

TEMPEST IN A TEA POT.

A Convention, or General Committee, composed of Delegates from the so-called "Committee of safety" in the several districts of South Carolina, assembled at *Columbia* on Monday last. The venerable Daniel E. Huger, of Charleston, was chosen President of the body. The various resolutions offered were referred to a committee of twenty-one, and among them were some by Hon. F. H. Elmore, requesting the Governor to convene the Legislature upon the passage of the Wilmot Proviso, or the abolition of slavery in the District of Columbia; others by Hon. F. W. Pickens, affirming the *Virginia Resolutions*, passed last winter; and others again by Col. Chesnut, involving the policy of "non-intercourse."

The Convention adjourned *sine die* on the 15th inst., after passing various resolutions; among them, one recommending the appointment of a Central Committee of Vigilance and Safety, to be composed of five persons; another, approving of the Southern address; and a third, expressing confidence in the "patriotism, energy and efficiency of the State authorities."

CHOLERA.—HOMŒPATHY.—Six physicians of Milwaukie have come out in a card in the papers of that city, recommending the Homœpathic, in cases of cholera. The Cincinnati Globe publishes a report from Drs. Putle and Eichman, Homœpathists, by which it appears that they have treated 153 cases of cholera, and in all the cases there has not been a single death! Dr. Peck of the same school reports 88 cases and no death. *Can this be true?—Toledo Republican.*

Correspondence of the State Sentinel.

EVANSVILLE, IND., May 10, 1849.

Eds. State Sentinel:

On yesterday the Hon. Joseph A. Wright made a politicrl speech in the Court House, in this city, to a respectable audience of over one hundred persons, amongst whom were some of the leading whigs in this county. The way Joe made the coon fur fly was a caution to Taylor men, especially to *new converts.*—Mr. Wright is an effective speaker at all times and under all circumstances, but he does best when he is thrusting at the vitals of whiggery or hpocritical Taylorism—the last of all the *isms*, and will stand up just long enough to be knocked down, and no longer. Well, Joe touched 'em up all round; first, the way the whigs had got Indiana into debt millions on millions of dollars, with a system of internal improvements that broke down on their hands, and they had to call on the democrats to help them out of the dirty scrape they had got the people into. (By the way, did you ever reflect that Milton Stapp was one of the figure-heads of that beauty of a system, by whose blundering the people were so much imposed on and swindled! And also that he is one of the figure heads of Taylorism in this State, and that too will break down after having egregiously swindled the people of this country?) Stapp has the *credit* of being a clever fellow and an honest man, but he is the most perfect image of *bad luck* that ever headed a party or endeavored to control a State.

Well, Joe next gave them a turn over the *honesty* of the whig party during the last Presidential canvass, as evinced by their professions of having a *No Party No Friends to reward nor Enemies to punish* candidate, all of which he contrasted with the shameless proscription now progressing throughout the whole country for opinion's sake. Ah, my friend Chap., I saw whiggery trembling with shame and guilt under the withering denunciation of Mr. Wright. "YOU HAVE DECEIVED THE PEOPLE. THE HANDWRITING IS ON THE WALL. *Taylorism* CAN'T STAND BEFORE THE HONEST INDIGNATION OF A BETRAYED AND INSULTED NATION."

No words can describe the effect of this rebuke. It is not my intention to give you his whole speech. It was a masterly effort and will tell upon the ballot box in August in his favor. I hope he will go into every county in the State. His election is certain if the democrats go to the polls! Our party in this district is united, and besides giving Joe Wright a heavy majority we shall beat that other political hypocrite, Elisha Embree, *late* M. C.—Embree, who took $323.20 out of the treasury which he *admits* he ought not to have, and then raised the cry of *stop thief!* STOP THIEF!!—The people will dispose of him forever on the first Monday in August, and in his place they will get an honest man, Nathaniel Albertson. We are rejoicing over the elections in Connecticut and Virginia. Where's Taylorism!—Where's Defrees! Where's McGaughey!—Where's the man who opposed the Mexican war! *Non est.* Truly yours, S.

Private Correspondence of the Ledger.

WASHINGTON, May 2.

Prospective Modifications of the Sub-Treasury—It is said that the recommendation of Vice President Fillmore, on the subject of Banking Corporations, while comptroller, in favor of the receipt of State Bank Notes, secured by United States Stock, for government due, meets with favor from Mr. Meredith, and it is believed that some such modification of the Sub-Treasury will be recommended to Congress, at their next session, by the Treasury Department.

☞ We have seen other indications that some such scheme will be attempted. If accomplished, the principle of the present *exch* system will be abrogated, and Sub-Treasury will be transformed into the worst kind of a National Bank.—a bank based upon the National Debt, both to be perpetuated forever for the benefit of Thieves and Robbers in High Life.—*Ind. State Sentinel.*

A GROWING COUNTRY.—It has been said that ours is a "great and *growing* country," but the truth of this remark is nowhere so strikingly shown as in the fact that the distance between Jefferson, Ohio, and Washington City, has increased *four hundred and nine miles*, in the short period of ten years. It may be urged, we know, that the distance between these two points on the earth's surface, is the same now it was ten years ago, and that the apparent increase is owing to different standards of measurement—the shortest distance being ascertained by the inflexible rule of *honesty*, and the longer one by the elastic standard of *conscience*. Be this as it may, it is a fact shown by figures taken from the records of the Treasury Department, that in 1837, Elisha Whittlesey, Representative in Congress from the 20th district of Ohio, charged and received pay for traveling 341 miles from his residence to Washington City, and that his successor, Joshua R. Giddings, charges and receives pay for 850 miles. The increase has however not been the growth of a day or year, but gradual and progressive from 1837 to 1848. The following exhibit of mileage accounts, marks its various stages from one extreme to the other—each item in the swelling series growing more interesting than the one before it, as "*distance* lends enchantment to the view."

1837. ELISHA WHITTLESEY, Cr.
Dec. 4. By mileage 341 at 80c. $272 80
1838. JOSHUA R. GIDDINGS.

—*Dayton Journal.*

☞ As anything relating to the cholera at this time is of interest, we feel disposed to give the following recipe publicity. It is said to have been tried with great success in New Orleans:

CHOLERA MEDICINE—*No Mistake.*—Take a teaspoonful of African Cayenne Pepper, a teaspoonful of Carbonate of Soda, a tablespoonful of Paregoric and one third of a half pint of the best Cognac Brandy; add them together and shake the bottle well. As soon as the bowels become loose, or the cramp is felt, &c., take a tablespoonful of the mixture in a little hot water every half hour until relieved.

This preparation is intended for only one person; families should add in proportion to the number of their family, and have the same ready prepared. N. B.—In all cases the patient should be kept warm in bed.

The price of all the ingredients should not exceed 25 cents. Anything to the contrary notwithstanding.

☞ A lad in California, recently sent home to his mother a junk bottle full of gold dust, with the accompanying letter:

"*Dear Mother*—I have only just time to say that I send you a bottle of gold dust. I would send you more, but I can't, because bottles are very scarce in these diggins."

A New Port for the Lake Trade.—We have seen a letter to-day, from a Montreal House, addressed to one of our most eminent merchants on the river, advising the arrival there of the schooner California, from Lake Erie, with eleven thousand bushels of wheat. This is, we believe, the first cargo received at that port by a sail vessel from the Lakes, but it will doubtless be steadily followed, until a voyage from Chicago or any other port on the lakes, to Montreal, will be as much an every day occurrence, as it is now to Buffalo or Oswego.

Every additional extension of the length of navigation arising from the Lake trade, adds a proportional value to the shipping engaged in its commerce, and the admirable canal navigation around the several rapids in the St. Lawrence river between Kingston and Montreal, removes all hazard's to vessels and their cargoes, inciting our merchants and ship owners to extend their trade to Montreal and Quebec. From thence it is a clear run to any part of the world when the free navigation of the St. Lawrence is yielded by Great Britain. Many of the leading houses in Montreal are anxious to push their trade or the Western Lakes, and various shipments of Mackerel, Tanners, Whale, and other Oils, with some other articles of commerce, have been received at this and other ports with like advantage to shippers and consumers. A large portion of the iron for the Cleveland, Columbus, and Cincinnati Railroad has been ordered from England via Quebec to this port, being a much cheaper route than by way of New Orleans, and the purchases yet to be made for the road, will doubtless come by the same route.

Our Commercial men will gladly welcome a closer fellowship with the mercantile interests of Montreal, and we should like to wake up a short time in 1949 just to see the difference in the commercial relations between the two places then and at the present day. We will promise to "turn in" again without grumbling as soon as our leave of absence is expired.—*Cleveland Herald, May 21.*

WELLAND CANAL.—Much activity prevails on this canal in the completion of the new works, under the direction of Mr. Killaly.—At the Aqueduct, (says the St. Catherine's Journal,) we noticed operations to finish what remained undone. In the Swamp they were all alive. The new cut is a noble piece of work, and we hope to see it brought into requisition before the season closes. If superior abilities and untiring exertions will accomplish this purpose, it will be done under the management of the present superintendent of the Canal.

Opening very early, there has been a larger traffic through it, up to the end of April, than to the same date in any former year. In 1847, the number of vessels through, at that time was 185: and in 1848, 144. The number this year was 196—of which 147 were bound to American, and 49 to Canadian ports—112 of the former and 31 of the latter proceeding upwards.—*Cleveland Herald.*

Detroit, St. Lawrence and Lake Champlain.—We noticed a short time since that the propeller Earl Cathcart was loading in this city with a cargo of produce, destined for the towns on the St. Lawrence, Montreal and the Green Mountain Boys. The Montreal Pilot of the 26th says she had arrived at Lachine with a cargo of flour and pork to the Chamberlain and St. Lawrence Railroad Co. the property of J. Hatch, Burlington. This is the first of a line of steamers about to be put on for the conveyance of the produce of the Western States to the waters of Lake Champlain. By the route of the St. Lawrence, freight from Detroit can be delivered at Burlington fifteen days quicker than by the Erie Canal, at great saving of expense.

This produce was all purchased in this market, and the first shipment of the kind ever made. The trade is destined to be an important one.—*Detroit Free Press.*

INGENIOUS ESCAPE OF A THIEF.—In consequence of the statement of a convict in the State Prison at Charlestown, the City Marshal and Warden went with him to Barnstable to procure fifty thousand dollars of stolen money, thirty-four thousand of it belonging to the Wheeling Bank, which was robbed sixteen years ago. The President of the Bank was sent for and come to Charlestown, and was also deceived by the rogue.

In a piece of woods the search commenced, and a hole four feet deep was dug straight down, then an excavation four feet to the right was made. The convict, who had been digging, got the marshal to take his place. The idea struck Mr. Nichols, the marshal, favorably, and he readily assented to the proposition, descended the ladder, entered head foremost the sideway passage excavated by his disinterested fellow laborer, and commenced removing carefully the earth supposed to be in the immediate vicinity of the treasure.—The warden, heading over to receive the money as it was to be handed up, was suddenly pushed head foremost into the well by the convict. He instantly threw a quantity of dirt in upon them, much to the detriment of their eye-sight, and taking to his heels, effected his escape—leaving the two officers to get out as they could, with their labor only to reward their adventure.

Phillips fled, and so successfully secreted himself, that all search for him was in vain, and the warden and Mr. Nichols returned to Boston, and caused to be published an advertisement offering a reward for Phillips. Mr. Nichols was so badly hurt by the warden's falling upon him in the pit, that he has not been able to leave his house since his return to Charleston.

Strange—but True!—Most of our readers recollect that some months ago, a man named John Scott, professing to be deaf and dumb, met with a serious accident in this place—Since that time, he has been treated by some of our citizens as an object of sympathy. He was writhing under the severest pain, and both deaf and dumb, he could only express it by signs. By degrees he recovered until, with the assistance of crutches, he could walk his room. About this time, he was taken with typhoid fever, which reduced him so low, that, after a time his life was despaired of. Up to Sunday night there was no change, until some time during the night, Mr. Covington, the gentleman at whose house he was staying, was awakened by a noise in the sick man's room. Fearing something had happened him, he went up immediately, and,—strange as it may seem—the deaf and dumb man was talking, and could hear! as perfectly as any one. Since he began to talk, he says he was about four years old when he lost the power of speech and hearing, and has remained so for twenty-four years. We know not what to say. It strikes us as one of the most singular occurrences on record.—*Ruthford (Tenn.) Telegraph.*

Another Invention.—A learned Belgian, M. Mainple, has recently discovered a very simple means of distinguishing between real and apparent death. It consists in creating a small burn; if there is life, a blister is always formed, even in the absence of apparent sensibility. If death has already intervened nothing of the kind occurs.

THE CHOLERA.

Ed. Chicago Democrat:

SIR—The municipal authorities having announced the presence of the Asiatic Cholera in Chicago, every means calculated to prevent its extension in families should be resorted to. Whilst the Board of Health are instituting measures of cleanliness, I would suggest that all families procure and mix the ingredients for disinfecting their houses with chlorine gas, the best disinfective known. The chloride of lime and the chloride of soda are unexceptionable, expensive for this purpose and evolve slowly. The poorest families may well afford the expense of generating chlorine gas from the following ingredients:

Half a pound of manganese (not over six cents,) half a pound of common salt (in every family,) one pound oil of vitriol (not over six cents,) one pound of water (at hand) mixed all together in an earthern or stone jar and stirred with a stick. Chlorine will be evolved largely from this mixture for a week, and will diffuse itself all over the house. If to plentiful open the doors and windows and let in fresh air. The only inconvenience will be coughing. Stir the mixture daily, and do not allow the jar to stand in a confined sleeping room, but allow ventilation. This is the mode of process for generating chlorine for the preparation of chloride of lime and also for bleaching. Workmen accustomed to bleaching operations stand an atmosphere highly charged with chlorine without detriment. It destroys vegetable colors, putrid odors, and infectious nuisances. It robs all poisonous effluvia, miasmatic vapors and stenches, or moisture, of hydrogen for which it has a powerful affinity, and thus corrects the putridity of jails, hospitals, penitentiaries, ships, barracks and all illy ventilated places by decomposing putrid matter in vapor. Were it kept constantly on hand in every house for weeks it might prevent the extension of cholera in this city.

H. L. KNAPP.

Every house and store in town should procure the chlorine gas. The earthern or stone jars can be procured at a trifling cost. The cost of the mixture, will not exceed 12½ cents per week.

CHOLERA PRESCRIPTIONS.—In our paper a few days ago we gave a prescription for those who desire to keep medicine on hand, to be used in the preliminaries stages, and before the arrival of a regular physician. We have since observed the following remedy more highly spoken of. Several physicians have advised that the quantity of brandy be diminished in solution to the other ingredients, viz:

½ ounce of gum guiacum;
½ " of ground Cloves;
½ " of ground Cinnamon;
1 pint of best Brandy.

Dose, a table spoonful, each half hour, till disease is arrested.

Some recommend from five to ten drops of Laudenum to be mixed with each dose.—*Lafayette Journal.*

WOUNDS ON TREES.—To make the bark grow over wounds and diseased places on forest and fruit trees without fail and with speed. When a branch is cut off, or a tree otherwise wounded, make the place smooth with a sharp knife, and if the tree be cankered, either cut away the part affected, or scrape it out until you come to the sound wood. In all cases make the surface as smooth as possible. Then put a half a pound of tallow into two pounds of tar, and warm it over the fire till the tallow is just melted in the tar, when one ounce of saltpetre should be added, and the whole stirred well together: the composition should then be laid on the part that you want to heal.—This has been found, by long experience, to be an effectual cure, and superior by far to any thing yet practised.

REMEDY FOR BOTS.—Having seen many horses die with bots, and many remedies given without effect, I was induced by a merchant in Cambrige to try the following for a horse of my own, after I had tried most of the remedies in common use without effect, and had given him up for lost:

Half pint vinegar, half pint soft soap, half pint gin and half pint molasses, well shaken together, and poured down when foaming.—To my great surprise, he was in five minutes wholly free from pain and ate very freely—the next morning I was on my journey. I have since recommended and given the same in perhaps fifty cases, with the same good effect; not in one instance has it failed to effect a perfect cure.

Great Gold Items.—The Boston Chronotypr publishes a letter from Mr. Andrew Potter, brother of one of the publishers of that paper, and formerly a printer of that city.—Mr. Potter, previous to the breaking out of gold fever, was Sheriff of Honolulu, but, with a number of others, started for the gold regions. The letter is dated Honolulu, Dec. 15, and says:

"I have made two trips from here to California with goods, and have realized a very handsome return. Some individuals have accumulated $2,000 in a single day, of pure gold; and many, one, two and three hundred a day, regularly. Vast numbers of the miners have died from the exposure, dissipation and violence. But thousands from all quarters of the earth are gathering in to take their chances of accumulating wealth or meeting a premature death."

Equality.—A cotemporary very justly remarks notwithstanding all the full fuss we make about "equality" in this country we are sadly humbugged on the subject. The fact is, and we can see it theoretically speaking, all men in good society are endowed with certain inalienable rights except poor men. All men who do not pay their honest debts are great scamps, except those who cheat on a large scale. All men are great sinners, except those who belong to the church. All men are allowed to think and speak freely, except those who are not orthodox. All men are gentlemen, except those who work for a living. All well-dressed and accomplished women are ladies, except factory and servant girls.

How the Ladies manage matters in Napoleon.—The village of Napoleon "on Maumee, on Maumee," must be rather a dangerous place for unmarried men to visit, if the following story is true. We copy from the Maumee River Times.

Rather a novel marriage took place at Napoleon in Henry county a few days since. It grew out of a banter given by a young damsel at a select company of young ladies and gentlemen, that she would marry any young gentleman present and pay for the license too, if he would agree to the contract. A young "spark" present finally summoned enough courage to accept the proposition, whereupon the damsel in

Mr. Wright will visit all he counties in the State, except 11, situate the lower Wabash and "the Pocket," and hese will be visited by Col. Lane, the candi- ate for Lieut. Governor.

ANOTHER CIRCUS.—The European Circus will be exhibited here on Monday the 4th June next. The celebrated Antonio Family, a Chinese juggler, Tumblers &c. &c, re attached to this company.

The Burnt District.—Mr. B. Saunders has already erected a bake shop on the site of his destroyed building and will have his oven in full blast on Monday. Arrangements are al- eady in progress to rebuild the whole block.

☞ The Canal Navigation has been inter- upted a few days, in consequence of repairs n the lock at the twelve-mile level. The re- airs are completed, and navigation will be re- umed to-day.

Grand Whig Fizzle.

The whigs of this district had rather a rich time at their abortive attempt at a convention last Saturday. Only seven counties were represented, and the meeting broke up with- t making any nomination. This untoward sult is attributed to the manœuvres of Judge ilgore, who induced his friends to stay from he convention, hoping by this course to drive he whigs into his support, and compel them run him as their candidate. In this, if we ay judge from the feeling manifested by the w igs here, he will find himself disappointed. Allen Hamilton, Esq. of this city was the un- ubted choice of a large majority of the whigs present at the convention, and his friends e not brook the way in which Kilgore has ustled him off the track, nor do they feel un- r any obligations to support a man who re- ed to submit his claims to a convention, but as resolved to rule or ruin.

Our neighbor of the Times is in quite a andary; he has not yet received his cue, d does not know what course to take, and nsequently he says nothing about the con- ention, except that it adjourned after passing me resolutions, which he will publish as n as received. He does not even hoist the me of any candidate for Congress. We pe in his next he will be able to define his sition.

The Huntington Herald shows more decis- n and independence, and the name of SAMU- L MAHON is proudly displayed at his mast- ad as the candidate whose claims for Con- ess he advocates. Mr. Mahon's honorable urse in the convention offers a strong con- st to that pursued by Kilgore, and gained im many friends. We should not be surpri- d if he were to be taken up as the regular w ig candidate, if he will consent, in the pres- nt distracted state of his party, to run. In is portion of the state, he would certainly ir outrun Kilgore, who has forfeited all claims the support of the whig party. We hope owever Mr. Mahon may have prudence e- ough to decline. He is a good fellow, and e should be sorry to see him exposed to the verwhelming defeat which inevitably awaits he man who runs against the democratic nom- nee in this district.

ARREST.—Charles Burkowsky and Catha- ine Smith were arrested on Thursday night ast at the Washington Hall, in this city, by he Sheriff of Allen County, and officer Pat- erson of Pittsburgh (who followed them from hat city). They were charged with stealing large sum of money and a gold watch from eopold Sahl. The pursuers recovered the atch and about $250 of the money. The skirt" of the lady on being examined turned ut a real California "placer"—as the officers ut some fifty or sixty gold pieces out of it, of he denominations of ten and five dollars, and 3 francs.

The parties were taken before his honor the ayor; from thence the case was removed efore Esq. Dubois, who after hearing the ev- dence adduced, discharged the woman and mmitted the man to await the requisition of e Governor of Pennsylvania, in which state e offence was committed.

A quantity of skeleton keys and other bur- ar's implements were found in Burkowsky's ank.

New Orleans overflowed.—Accounts from ew Orleans, by telegraph, to the 30th state at the water is still rising, and almost the hole city is flooded. The cholera is again ging with great violence.

We notice the Times announces the name of CHARLES M. MUHLER as a candidate to represent this county in the next Legislature. This nomination, the Times thinks, will disprove the "foul slander" that the whigs are opposed to the elevation of foreigners to office, and will induce that class of citizens for the future to act with their *true friends* the whigs!! That the nomination is made with that view, we have no doubt; the article of the Times clearly shows it; but that the naturalized citizens can be thus easily induced to overlook the notorious fact that the whigs as a party have uniformly aided the natives in their proscriptive efforts to oppress all foreigners who seek an asylum in this country; or that they will consider this solitary act of justice—the interested motives which induced it, being so apparent—as a proof that the whigs are their "true friends," is a little more than we are prepared to swallow. We think the naturalized citizens are too acute to be thus duped. The very attempt, thus bunglingly made, is a direct insult to them, and shows that their new made *true friends* still underate their intelligence. Whiggery is getting into rather a tight place here, and has to resort to despicable expedients to keep its head above water; but in this case the trick has been too bunglingly done—it is too transparent, and the motive too visible, to be successful. A trick of this kind, to succeed, requires a more adroit operator than the editor of the Times.

Mr. Muhler is a very worthy man, and will probably receive the votes of the few of his countrymen who are in the habit of voting the whig ticket; but the democratic portion of them will, we are convinced, maintain their political integrity, and not suffer themselves to be duped by this shallow device. They are not to be tempted to vote for a whig candidate merely because he happens to be a countryman, nor to forswear their principles because a few scheming demagogues have seen fit to coax such a man to allow himself to be made their tool. Unless we are much mistaken in Mr. Muhler he will not himself expect to receive a single democratic German vote; and he may esteem himself fortunate if he receives all the votes of the native whigs. It will be hard for some of them to give a vote for a naturalized citizen.

VIRGINIA ELECTION.—The Times takes us to task for crowing over the glorious result of the Virginia election, where we elected 14 out of 15 members of Congress; and contends that this is not consistent with the free soil resolutions adopted by our convention last week.—We cannot see the force of our neighbor's reasoning. On the vital questions of the Tariff, the Sub Treasury, and a National Bank—in opposition to all federal schemes of extravagance, and legislation for the benefit of favored classes at the expense of the community at large—the Virginia democrats are certainly with us, and opposed to Taylor's administration. Does the Times contend that because they do not agree with us on the single question of slavery, they ought to be classed as whigs? Is this to be the test? The whigs in favor of slavery, and the democrats opposed to it? We are perfectly willing this should be the issue, but we did not expect to see a northern whig paper openly avow such a doctrine, though it may be the true one.—The whig President is a slaveholder, and was elected by the slave power as the champion of its interests, and the party, in the north as well as in the south, may feel bound to sustain him in that position. But if so, the free citizens of Indiana would like to be informed of the fact. Please explain. Give us light, Brother Withers. There is certainly (to reply to the Times' concluding query) something out of place.

Harlan in La Grange Co.—A friend in La Grange Co. writes:—

"I have just heard of the nomination of Harlan for Congress. He will run well here; there are a number of his Grant Co. friends residing in this town, who will vote for him, although they are all whigs."

OUR CONVENTION.—The Western Union, a neutral or independent paper, published at Marion, Grant Co thus speaks of our convention, and the manner in which the nomination of Mr. Harlan was viewed by his neighbors—who certainly ought to be the best judges of his qualifications:

"We are informed the utmost harmony and good feeling characterised the proceedings of the convention, and the nomination of Mr. Harlan was acceded to most cordially by the other candidates.

"It is in accordance with the independent character of our paper to say, that WE REGARD THE NOMINATION OF MR. HARLAN AS THE BEST THAT COULD HAVE BEEN MADE BY THE DEMOCRATIC PARTY; AND THAT IT IS SO REGARDED BY ALL PARTIES HERE.

THE CHOLERA.—The cholera appears to have subsided in Cincinnati. On the 29th the city was reported free from cholera, and on the 30th one case only was reported. In Louisville, too, the disease is disappearing. In St. Louis it still rages. One steamboat lost 70 passengers by cholera between St. Louis and Jefferson City.

There have been a few cases of cholera in New York.

CANDIDATES FOR CONGRESS.

3d "	J. L. Robinson,	Jos. Robinson,

Hon. Elisha Whittlesey of Ohio, has been appointed first Comptroller of the Treasury in place of James W. McCullen resigned.

It is thought that General Taylor will not recall General Lane before August next, for fear that it will have a bad effect for Taylorism upon the elections in this State. General Taylor tried that experiment in Virginia, but it would not answer. He and his party may as well come down, for an outraged people will not longer sustain a party which obtained power by such means as did those who now stand in the high places of our government.—*Madison Courier.*

Noble County Democratic Convention.

Pursuant to public notice, the delegates from the several townships of Noble County met in Convention on Saturday the 19th day of May, 1849, at the Court House in Albion. The meeting being called to order, the Hon. EDWIN RANDALL was called to the Chair, ANDREW CURREY chosen Vice President, and WILLIAM E. LOVELY, Secretary.

After the object of the meeting had been explained, on motion the convention proceeded to ballot for a candidate for the office of Clerk, when NELSON PRENTISS having received a majority of all the votes cast, was unanimously declared the candidate for said office.

Mr. Prentiss now came forward, and in a few remarks returned his thanks to the convention for the distinction; which was heartily responded to by the meeting.

The convention then proceeded to ballot for the other offices to be filled, which resulted as follows:

For Probate Judge—Harrison Wood.
For Commissioner—Otis Allen.
For Prosecuting Attorney—Stephen Wildman.

The following persons were then appointed as delegates to attend the Senatorial Convention to be held at Angola on the 23d day of June:—James Long, Nelson Prentiss, H. H. Hitchcock, W. E. Bowen, D. B. Herriman, Noah J. Hill, N P Eagles, Andrew Currey, M. M. Mariam, Samuel Minot, A. M. Gifford, Harrison Wood.

Also, the following persons were chosen delegates to the District Convention at North Port:—David Wiley, James Long, S. Benton, John McDevitt, Andrew Currey, J. A. Colerick, F. Miller, Olin Williams, S. Southward, J. C. Alvor, Jeone Sweet, N. P Eagles, Richard Stone, John Earnhart, Nelson Prentiss, Ralph Hardenbrook, William F. Engle, J. Larman, Edwin Randall, A. M. Gifford, Timothy Adams, Stephen Shaw, William Demey, Isaac Carin, James McConnel, James Dungan, J. F. Brothwell, Daniel Hathaway, Samuel Carroll, Elihu Wadsworth, Jonas Strouse, S. T. Clymer.

On motion, it was ordered that any delegate not being able to attend any of the conventions have the power to appoint a substitute.

The following persons were appointed a Central Committee for the ensuing year:—Nelson Prentiss, Jerome Sweet, William F. Engle, Harrison Wood, H. H. Hitchcock.

Hon. S. T. Clymer now came forward and presented the resolutions, which were adopted by the meeting:

Whereas, The slaveholders of the south, by an alliance with the disaffected of all parties at the north, have been the means of placing in the Chair of State a southern slaveholder, whose only qualification for the office was his participation in a war which his supporters denounced as unholy, unjust, and abhorred of God, the sole purpose of which was robbery and plunder.

And, *Whereas*, Before the election he had no principles for the public eye, but was "all things to all men, that he might gain some;" and since his elevation to trust and power has shown himself one of the most ultra of partisans by proscribing from place every democrat who could not conscientiously support him.

And, *Whereas*, We as democrats have no confidence in Zachary Taylor on the subject of free soil and free territory, it becomes the duty of every northern democrat in Congress to urge the adoption of the principles of the Wilmot Proviso in any law for organizing the territories of California and New Mexico.

Therefore, *Resolved*, That we, as democrats of Noble County, will not support at the approaching August election any man who will not use his efforts against the introduction of domestic slavery into any of the new territories belonging to the United States.

Resolved, That as we have been beaten in 1848 by an unholy combination of influences, that we will double our diligence and do our whole duty, and give the whig party such a rout, in 1852, as they have always experienced at the end of four years.

Resolved, That it is the duty of every democrat of Noble County to give to the ticket this day nominated a cordial, hearty, and undivided support, and a long pull, a strong pull, and a pull altogether.

On motion,

Resolved, That the proceedings of this meeting be signed by the officers and published in the Goshen Democrat and Fort Wayne Sentinel.

EDWIN RANDALL, *Pres't.*
A. CURREY, *Vice Pres't.*
WM. E. LOVELY, *Sec'y.*

From the Logansport Pharos.

LOGANSPORT, May 28, 1849.

S. A. HALL:

I am informed that a statement is made in the Indiana State Journal of last week, that I am electioneering for Joseph A. Wright for Governor. I wish you to state in your paper that the charge is false. I have as yet electioneered for no person—but when I do, it shall be for James H. Cravens, and no other person.

A few weeks since, on the canal packet, a few worthies from the lower Wabash most *villainously* slandered the private character of Joseph A. Wright; and as Mr. Wright and myself have been for a long time intimate friends, I thought it my duty to correct their statements. I did so and I suppose this is the foundation of the charge.

As a man, I respect Mr. Wright; and if his private character is slandered in my presence I shall defend him—and I hope I can do so without being considered as electioneering for him.

JOHN W. WRIGHT.

☞ The Fort Wayne Sentinel says, the rumor, published in the Western Union a few weeks ago, that the cholera was in Fort Wayne, "is wide of the truth," and asks "Will the Union please inform us who originated the rumor;" the Sentinel supposes we obtained it from certain individuals to whom it alludes, which in this case is a very natural supposition—but it happens not to be correct: Dr. Mills, a very respectable gentleman of Warren, gave us the information, the doctor might have gotten his information from those *pests*, can't say as to that, we are glad to learn however that there is no cholera there.—*Western Union.*

☞ The *Positivo* of Rome states that the following are some of the terms imposed by France, on the Pope, as one of the conditions on which they will aid his return to Rome: a general armistice, a complete secular government, inviolability of political liberty, abolition of the holy office and ecclesiastical tribunals, except in the matter of the clergy, and the suppression of proprietary religious orders.

Another Bill, having for its object the removal of the Jewish disabilities, has been read a second time by larger majority than before. Mr. Roebuck is about to bring before Parliament his plan for the better government of the British Colonies. He has also moved for a committee to ascertain the amount of debt due from foreign Governments to British subjects. On the list of the Court of Errors, were the causes of O'Brien and McManus, without hearing—counsel for the crown. The Judges decided unanimously that the errors assigned by the Plaintiff's counsel could not be maintained. The judgment of the Queen's Court, stands affirmed, and the prisoners will probably be transported the 1st of June. It is rumored that Duffy's prosecution is to be abandoned.

GERMANY.—The quarrel between the Parliaments throughout Germany, and the respective Princes have reached the highest pitch.

In Lagony conflicts have already taken place. The fight was decided in favor of the people, who fought with the troops for seven hours. Great loss of life. The Railways were displaced to prevent troops from Berlin from crossing. A sufficient Russian force arrived, and tranquility was secured by military force. The fight was resumed the next morning, and the deadly warfare was going on at the latest advices. Intelligence from Dresden to the 8th, says that hostilities raged between the Royal Arch Duke and the people.

Disturbances had occurred at Leipsic between the people and military, but the former had been subdued after a short struggle.

An insurrection had broken out at Breslaw on the 26th. The people and the troops were fighting in the street,

AUSTRIA AND HUNGARY.—In the midst of all these commotions, the Austrian Government was in danger of dissolution, from the continued successes of the Hungarians, who had taken Braner and Reyiso. The Russians were in the meantime advancing in great force. The Hungarians are excited to the highest pitch of enthusiasm, and declare that Austria and Russia combined could not subdue them. Efforts are being made to stir up a rebellion in Jalisco, and in fact the whole country from Posen to Pesth, are either involved in or on the brink of revolution.

England and France have indicated their disapproval of the Russian intervention in Hungary.

The French Army Defeated in Italy!—Advices from Paris state that the check the French troops met in the Papal States has moved France to the centre and touched her people upon the most tender point. The particulars of the battle in the Imperial City are given. The French General marched on the 27th of April from Cevita Vecchia to Rome, but meeting more opposition than he expected, he halted a short distance from the city, awaiting the arrival of the rest of the expedition. The Roman Assembly on the 26th tendered the Triumvirs the safety of the Republic, urging the necessity of a force to repel the French. Barricades were erected, and every preparation made to defend the city.—The Central Committee protested against the entrance of the French into Rome, threatening to blow up the Vatician and St. Peters!—The French replied that the orders were imperative, and they would enter Rome forcibly if necessary. They accordingly entered the city, and were received by a volley of musketry and missiles, and were forced to retreat with a loss of two hundred killed and five hundred wounded. The English accounts state that the French did not enter the city, but were whipped at the gates with six hundred killed! The French prisoners declared themselves tricked into the expedition, and believed that they were going to fight against the Austrians.

General Oudinotte was taked prisonerr, and rescued with difficulty.

Upon the reception of the news in Paris the President addressed the following letter to the French General:

NATIONAL PALACE,
May 8th, 1849.

Dear General—The telegraphic news announcing the strong resistance which you have met under the walls of Rome, has greatly pained me.

I had hoped that the inhabitants of Rome on opening their eyes to evidence would receive with eagerness an army which had arrived to accomplish a friendly and disinterested mission, this has not been the case, our Military and National honor is injured, and I will not suffer it to be impugned, for reinforcements shall not be wanting to you. Tell your soldiers I appreciate their bravery, and take part in what they endure—they may always rely on my support and gratitude.

My Dear General, receive the sentiments of my highest esteem,

LOUIS NAPOLEON BONAPARTE.

A private letter published in the Paris National Reformer, contains statements of the loss of the French in Rome, up to the 2d.—Rome remains unsubdued. An exchange of prisoners has been effected. The Roman Government has placed Acon under siege; Berlan is declared in a state of siege; Military rule has entirely prevailed; Disturbance have been suppressed but are momently expected to break out again.

GERMANY.—An insurrection at Cologne is hourly expected. The city is greatly agitated. Militia and King's troops had come in contact at Alberfet, during the recent outbreak, and the whole of the Rhine Provinces are in an excited state, ready to explode like a train of gunpowder. The armed militia are disaffected toward the King of Prussia, and in favor of the Frankfort Assembly.

The King's troops at Hanover were overpowered in a collision with the Students of the Polytechnic School. The King subsequently fled.

The Hungarians are forming an army of 100.000. They will crush Austria, unless Russia sends large reinforcements. Jellichich's army is reported to be entirely devoured.

Late news state that the Danish and Schleswig quarrels will be amicably adjusted. The Russians were being poured into Austria.—The Emperor has returned to the capital, and was received with every symptom of enthusiasm.

PROBABILITY OF A GENERAL WAR IN EUROPE.—The New York Commercial Advertiser, whose maturely considered opinions on European affairs are always deserving attention, in discussing the probable results of the Russo-Germanic War now raging in Hungary, arrives at these conclusions:

Unless the Hungarians are thoroughly and hopelessly crushed in a single battle and at an early day, there is strong probability of something very like a general war in Europe, the termination of which it is not easy to foresee. It is a lamentable thing to feel and acknowledge; but the conviction can hardly be resisted that Europe is in a diseased condition, the remedy for which is to be found only in a severe and terrible application of surgery.—There is a mass of festering corruption among all those Kings and abettors of Kings, among those rulers and standing armies and aristocratic interests, which must be cut away before the nation can know permanent peace or welfare.

This is, indeed, lamentable, but not less so is the fact—and such all history proves it to be—that no great political revolution resulting permanent, substantial reforms, was ever achieved except by toil, suffering and blood.—Men must love freedom and its attendent blessings well enough to peril their lives in battle for it or it will never be attained. Revolutions are no holiday work, and when, last year almost each successive steamer brought the news of a revolution achieved in a week, a day, or in some instances, in a few hours, we had no faith in the stability of grand political changes wrought with the rapidity and seeming ease of the changes of pictures in a magic lantern. Blood, hot human blood, poured out like water, is the only cement that can be relied upon to make firm and secure any fabric of government that is not slowly and gradually built up in obedience to the slow development of popular ideas. We cannot doubt that with the progress of general enlightenment freedom will eventually overspread the world. But the nations are not yet prepared for it, and they must be tried as by fire before they will be. Who that is acquainted with the condition of France can feel any confidence in the stability of the existing republic. The French people have not been educated up to the point of sustaining it.—They evidently shrank from the toils, dangers and sacrifices necessary to carry through to a successful conclusion the impromptu revolution of February, 1848, and have since been relapsing to the old regime disguised under a new name. The grand idea of a real revolution is, however, working and fermenting in the minds of the masses not only of the French people but of the Continent generally. It may be crushed, but if it be speedily, it will gain consistency. Men will see more clearly than they have what their real wants are, and seek the remedy. Then will come the strife, desperate and bloody.

IMPORTANT LAW SUIT.—The Circuit Court has been occupied, for several days past, in the trial of a civil case of some importance.—The circumstances, if we correctly apprehend them, are as follows: Some five years ago, when many believed that the Branch Bank at Indianapolis was extensively engaged in shaving operations, a purchase was made by the Bank from one Bushnell, of bills of exchange on New York, to the amount of $12,000.—Bushnell acted as an agent of a firm in Detroit, and presented a letter of credit, or something which the bank regarded in that light, from Jesse L. Williams, of the firm of Hamilton & Williams, Fort Wayne. A similar letter from Benbridge & Mix, Lafayette, to S. Merrill, was also laid before the bank managers. The transaction was soon ascertained to be a regular *suck in*: the drafts were good for nothing. The bank, by good luck seized upon certain property, purchased by Bushnell, and now enters suit against Hamilton & Williams, for the balance, and interest, say $5,-000. Their responsibility turned upon the real character of their letter, presented to the bank by Bushnell, as to whether it was technichally a "letter of credit" or not.

After a long and laborious investigation, the jury returned a verdict in favor of the defendants, and against the bank. An appeal will be taken to the Supreme Court.

S. Major, H. O'Neal, and S. Yandes, for the bank; O. H. Smith, Z. Baird, and W. Quarles, for the defendants.—*Ind. State Sent.*

☞ The Richmond Whig, in some remarks on the Canadian riots, says:

"It aphears to us very doubtful, to say the least of it, whether England ever will reclaim her refractory colony. She will then, no doubt, be seeking admission into the Union—craving to be annexed—and that, we suspect, will be her ultimate destination; for it is not in the hearts of our annexationists to refuse such a splendid gift as this would be. For our own parts, we are Southern men, and regard the north as already sufficiently powerful, for any service it will ever do us. We wish to see no annexation in THAT quarter, at least.

No doubt you are opposed to "annexation," and your miserable, selfish, sectional cry about the "North already sufficiently powerful," is but the pitiful slang of seeret hostility to the growth of this great Union in any quarter.—It is but the thread bare story of "no more annexation," preached by your party for a half a century. Away, then, with such pitiful stuff.—*Ohio Statesman.*

☞ Messrs. Wright and Matson, the democratic and whig candidates for Governor, addressed the people at the court house last night. Each gentleman spoke for an hour, and then had half an hour for reply. Mr. Matson led off, and made a tolerable speech for a whig; indeed the whigs begun to chuckle, and one would suppose, from the appearance of their physiognomies, that they considered Matson "some pumpkins." But, alas and alackaday! when Mr. Wright rose to reply, all the whigs present, Mr. Matson included, looked as though they could crawl thro' a buttonhole with all imaginable ease. Mr. Wright is a most able and energetic speaker, and in him the democracy of Indiana have a powerful champion.

Mr. Wright's closing address was a most brilliant effort, frequently calling down the enthusiastic applause of the audience. His allusions to the services of Gen. Joseph Lane were responded to by such volleys of deafening and universal shouts and cheers as to clearly show where the hearts of the people of Indiana are. The slanderer who sits in the chair of State at Washington might possibly learn a lesson if he could for a moment listen to the shouts of an honest Indiana auditory when the name of gallant JOE LANE is mentioned.—*New Albany Democrat.*

☞ We yesterday published a batch of removals and appointments just made by the Taylor administration, several of which are for Indiana. Messrs. Wise and Mayes, the able and competent land officers at Vincennes, are removed, and Messrs. Carnan and Clark appointed in their places. Carnan, one of the appointees, is a broken down political hack, who, though living in a county giving three hundred whig majority, has been repudiated over and over again, when he presented himself as a candidate. He also has the reputation of being a very intemperate man.

Old John Ewing, also a broken down hack, is transported from Vincennes to Crawfordsville, to take the place of Mr. Rusk, removed. Here is another beautiful commentary on Taylor professions. It was early proclaimed as the settled policy of the administration, that men would not be taken from one place to fill offices in another. Yet, in Indiana, we have seen this rule violated in two instances. Dan Sigler is taken from Greencastle to fill an office in Pulaski county; and now we see Ewing, a man who is hated and despised by his own party—who was denounced in the most furious terms by the National Intelligencer, the Vincennes Gazette, and other whig papers, as unworthy of confidence—is to be taken from Vincennes to fill a Crawfordsville office. Why is this? Can it be possible that Montgomery county, containing more than three thousand voters, has not within her borders a man capable of filling the office of Register? No sane man can suppose such a thing. But here is the reason. The borough of Vincennes contained three men who must be provided for, while there were but two offices located there; hence one of them must be sent elsewhere, and old Johnny Ewing is sent to Crawfordsville. What a beautiful commentary does all this present of the consistency, the sincerity, and the honesty of a whig administration, which came into power pledged to "No Proscription," to make Honesty and Capacity the test of Executive favor, and to fill the offices with citizens of their respective places.—*New Albany Democrat.*

NEW YORK, May 15—3 P. M.

Verdict on the Rioters.—The jury in the case of those who fell during the Astor Place riot, after a long consultation came in late last evening with the following verdict:

"We believe that George A. Curtiss, John McDonald, Thomas Aylward, George Lincoln, Timothy Burns, Henry Otten, Geo. W. Brown, Wm. Butler, George W. Taylor, Owen Burns, Thomas Bullman, Neil G. Willis, A. F. Collins, William Arwin, Thomas Reernan, Matthew Cohill, and Geo. W. Gedrey, came to their deaths by gun shot wounds, fired by the military during the riot, below the Opera House, on Thursday Evening, 10th May instant, by order of the civil authorities of the city of New York; and that the circumstances existing at the time justified the authorities in giving the order to fire upon the mob. We further believe that if a large number of the police had been called out a resort to the use of the military might have been avoided."

Howland and Aspinwall have received dispatches from New Orleans announcing steamers Oregon and California arrived at Panama on the 5th instant. Freight valued at over half a million of dollars.

FROM CANADA.

MONTREAL, May 22.

The address to the Governor General to remove the seat of Government to Quebec and Toronto, to be alternately held at each city four years, was carried by the necessary majority. The city continues tranquil.

A Foreign Market for American Breadstuffs.—The Daily Courier, of Buffalo, after specifying our immense exports of Breadstuffs for 1848, pertinently says:

"Suppose the English market to be cut off to-morrow by the enactment of a high tariff. What would be the consequence? The vast amounts of produce now seeking a foreign market would be retained here. This would depress prices to a ruinous point, while these 'lords of the loom,' these patriotic manufacturers could buy cheap and pay in goods at prices twenty or thirty per cent higher. Is there any thing plainer than this? Yet these tariff advocates have the impudence to propose to the farming and commercial or shipping interests of the country to abandon the markets of the world for the benefit of our manufacturing interest! The project is both preposterous and wicked, and it seems unnatural to us that any man, having an interest in trade or property at such an advantageous commercial point as our city, can listen for a moment to it, far less endorse or advocate it. There can be but few who do so, and fortunately for the reputation of the American people, these are already found to be in a small minority, and still declining."

Of course, if we desire to sell to England, we must buy of her—she cannot pay specie for her imports to any great extent, much more than we can.

The Balance of Power in Congress.—The whig papers, like drowning men, are catching at straws to save them from the political wreck to which they are fast being driven.—Finding that the *whig party proper* is likely to be in a minority in the House of Representatives, they are trying to figure up a majority by counting the *free soil whigs* as probable supporters of the Taylor dynasty! In view of this calculation the Pennsylvanian well exclaims:

To what tender mercies the new administration is committed by its eager friends! At the head of these Free soilers, is Giddings, whom the Baltimore Patriot, a Southern paper, boldly claims as a Taylor Whig—Giddings, who seceded from Taylor are so fresh in all men's minds, even since the adjournment of the XXXth Congress! The others who are lugged in to make up the estimated Taylor majority in the House, are Allen, from the Vth District, Massachusetts, who stumped it against Taylor last year—denounced him in the National Convention—and finally defeated Hudson, the regular whig candidate in his district for Congress—Palfrey, of the IVth District, in the same State, who was active in his hostility to Taylor—Root, of Ohio, one of the boldest and bitterest Van Buren Free soilers in the country—together with several more not quite so prominent in the anti-Taylor defection, but equally well known to the country. These are the materials that make up a whig calculation of a Taylor majority in the next House of Representatives.

Money Market—Gold from California.—While there is great complaint, of the scarcity of money in all parts of the West, it appears that in New York, and in all the eastern cities, capital is abundant, and is seeking investment at legal rate of interest. We do not sppose that money will become any more abundant in this section, until a new crop shall give our farmers the means of putting money in circulation, by selling their surplus produce. The growing crops now give evidence of an abundant harvest.

We are inclined that money will soon become more abundant, and the rate of interest lower, than it now is in the eastern cities.—Between this and the 1st August, a large sum will be paid into the hands of capitalists in the shape of dividends on government, State and Railroad stocks. Should the gold from California continue to arrive as is expected, the rate of interest must recede considerably.—These causes will operate favorably for the construction of our newly projected railroads in the West, and for all other legitimate and industrial commercial pursuits.—*Toledo Republican.*

HORRIBLE ATTEMPT TO DESTROY A FAMILY.—Yesterday, one of the boldest attempts was made to destroy the life of Mr. Thomas Warner and his entire family, that is on record since the days of the infernal machine.

The circumstances of the case are these:—While Mr. Warner was absent on Thursday evening, at Philadelphia, a colored man or a person disguised as such, called at his residence, No. 18. City Hall Place, and left a package done up in a newspaper, and directed to him, and marked *confidential*. The package was laid away to remain until he returned although Mrs. Warner attempted to open it, but left it, not being able to open it without some difficulty. On Mr. Warner's return yesterday, he was informed of the fact and it was brought to him. He was at that moment in great haste, but took off the paper, and found a box handsomely finished with a sliding lid.

His suspicions, however, had been aroused by the circumstances under which the article had been left. Proceeding to draw off the lid, he saw a light blue smoke arising from the box. He instantly dropped the box on the table, and hurried his family out of the room. Scarcely had he done so, when the most terrific explosion ensued, that burst through the partition wall, broke the windows, and shattered the furniture. Slung shot, slugs and bullets were found lodged in the sides of the room and furniture. As soon as the explosion had occurred, Mr. Warner returned to the room, and found a pound canister, which had probably contained the powder that had produced the fearful destruction. A reward of $500 has been offered by Mr. Warner.—*N. Y. Journal of Commerce.*

☞ John Ferris has been appointed Postmaster at Lawrenceburgh, Indiana, vice Wallace C. Law, *removed*. Mr. Law served his country bravely in the war with Mexico, and *lost one of his arms by a cannon ball at the battle of Buena Vista*. Of course this disqualifies him—takes away the "essential prerequisites."

We would earnestly advise all who are afflicted with dropsy or gravel, or any disease of the kidneys, to resort at once to G. C. Vaughn's Vegetable Lithontriptic Mixture. The Great American Remedy has singular properties. We happen to know of a case of dropsy which was most unsuccessfully treated by two of the first physicians of Boston, one of them almost the oldest practic ener in B, and the friends took hold of the matter with Vaughn's Lithontriptic and effected a cure. The opponents of "quackery" may cry as loud as they please, give us quackery of Vaughn's article is one of its fruits. Seriously, we are tired of this humbug which surrounds the medical profession of the present day; here is an article, this very medicine we speak of, taking case after case and curing them when the "professors" have exhausted all their lore, and did nothing, and yet would make the public think such an article as this Lithontriptic has no virtue.—Reader put forth your faith in Vaughn's article, read the pamphlet, &c., call upon Agents under advertisement of Great American Remedy in our paper.

No Cure No Pay.

I Would inform the world that I have a Remedy for curing or healing Ruptures, without any pain in the operation, and without even seeing the place thus ruptured. Some of the wise and learned may laugh and scorn at the proposition, but don't be too fast, this is no new fiction my father has practiced the Remedy over forty years in the East, and I have cured three persons myself. I give this to the public, because I believe it to be my duty to do all the good I can to my fellows. WM. IBA.

And I would also request editors of papers in the Country to make a short paragraph of the above in their sheets, and by so doing they will confer a blessing on some of their patrons.

Notice.

THE Firm of SAMUEL HANNA & SON was dissolved in July last. This is to give notice to all concerned, that the notes and accounts due said firm, both in this county and Kekionga have been put in the hands of Mr. Wm. C. Taylor for collection, who is authorized to receive and receipt for the same. Many persons owing it evidently considered it a favor to be allowed to ask them again; but I assure all persons indebted that unless their attention is immediately directed to the subject, they will find those claims in the hands of an officer for collection.

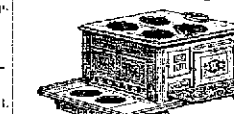
STOVES.



We place the "IMPERIAL AIR TIGHT" first; because we consider them decidedly foremost in the way of all Stoves.

PREMIUM STOVES.

Among the different kinds of Premium Cooking Stoves we have the "Troy Victory," to the excellent qualities of which all who have ever tried them will readily attest. We selected them at the best premium there in market, and the increased demand for them induced us to bring on a large assortment. We have also the common premium from Ref fels and Cheshrough, and Nos 7 rough and ready, the "Knickerbocker" with no name or superficial ornaments, but so well recommended that any one wishing a Stove can take it, and believing it back again if it does not work well. Last, at head of the Cooking line stands the great "Hathaway" of Barton, which we keep on hand for the especial benefit of those who prefer this to a better article.

POETRY.

CHARITY.

In the hour of keenest sorrow—
In the hour of deepest woe—
Wait not for the coming morrow,—
To the sad and sorrowing go;
Make it thy sincerest pleasure,
To administer relief,
Freely opening thy treasure,
To assuage a brother's grief.

Go and seek the orphan sighing;
Seek the widow in her tears:
As on mercy's pinions flying,
Go dispel their darkest fears:
Seek the stranger, sad and weary.
Pass not on the other side,
Though the task be sad and dreary,
Heeding not the scorn of pride.

Go, with manners unassuming,
In a meek and quiet way.
O'er the father ne'er presuming,
Though thy brother sadly stray;
'Tis a Saviour's kind compassion.
'Tis his righteousness alone,
All unmerited salvation,
That around thy path hath shone.

When thy heart is warmly glowing
With the sacred love of prayer,
Be thy works of kindness flowing,
Not as with a miser's care;
Duty e'er should be thy watchword.
Pity sup a balmy tear;
Always toward the fallen cherish
Sympathy and love sincere.

Elizabeth Blackwell, M. D.

The public, though in newspapers, has been pretty generally informed that this lady was a regular student of Geneva Medical College, and received the diploma of that institution at its last commencement. As she is the first medical doctor of her sex in the United States, the case is, naturally enough, one of those questionable matters upon which there must be a great variety of opinions, and the public sentiment is, besides, influenced by the partial and inaccurate statements of facts and conjectures which usually supply the place of correct information.

Miss Blackwell is twenty-eight years of age. She was born in the city of Bristol, England. Her father settled with his family in New York, when she was about eleven years old. After a residence there of five or six years, he failed in business, and removed to Cincinnati. A few weeks after his arrival there he died, leaving his widow and nine children in very embarrassed circumstances.—Elizabeth, the third daughter, was then seventeen years old, and assisted two of her sisters in teaching a young ladies' seminary. By the joint efforts of the eldest children, the young members of the family were supported and educated, and a comfortable homestead on Walnut Hill was secured for the family. The property which, in the midst of their first difficulties, they had the forecast to purchase, had already quadrupled the price which it cost them. I give this fact for the illustration of character which it affords.

The enterprise of these young ladies is still further indented by the next steps which they severally took. Anna, the eldest, some years ago took up her residence in the city of New York, where she has until lately worked at the trade of periodical authorship. French translation, and composer of music. She is now in England, under an engagement with a publisher there to translate the whole of Fourier's works. She was selected for this task for her very high ability in French translation, and the excellence of her English style. Another sister, Emily, is teaching a boy's school in Cincinnati, preparing them for college in the departments of mathematics and the classic languages. And Elizabeth, after two or three years hard labor in North and South Carolina, and two years more, exclusively devoted to the study of medicine, in Philadelphia and Geneva, has a medical diploma in her pocket.

About five years ago she first entertained the idea of devoting herself to the study of medicine. Having taken the resolution, she went vigorously to work to effect it. She commenced the study of Greek, and persevered until she could read it satisfactorily, and revived her Latin by devoting three or four hours a day to it, until she had both sufficiently for all ordinary and professional progress.—French she has taught, and studied German to gratify her fondness for its modern literature. The former she speaks with fluency, and translates the latter elegantly, and can manage to read Italian prose pretty well.

Early in the spring of 1844, for the purpose of making the most money in the shortest time, she set out for North Carolina, and after some months teaching French and music, and reading medicine with Dr. John Dickson, of Ashville, she removed to Charleston. Here she taught music alone, and read industriously under the direction of Dr. Samuel H. Dickson, then a resident of Charleston, and now professor of practice in the University of New York.

Two years ago she came to Philadelphia for the purpose of pursuing the study. That summer Dr. I. M. Allen, professor of anatomy, afforded her excellent opportunities for dissection in his private anatomical rooms.—The winter following she attended her first full course of lectures at Geneva. The next summer she resided at the Blockley Hospital, Philadelphia, where she had the kindest attentions from Dr. Beaudoc, the principal physician, and the very large range for observation which its great variety and number of cases afford. Last winter she attended her second course at Geneva, and graduated regularly at the close of the session. The thesis was upon slip fever, which she had ample opportunities for observing at Blockley. It was so ably written that the faculty of Geneva determined to give it a publication.

It is in keeping with my idea of this story to add that the proceeds of her own industry have been adequate to the entire expenses of her medical education—about eight hundred dollars.

In a few weeks she will leave for Paris, with the design of remaining there one or two years, hoping to obtain there still greater facilities for the further study of her profession than this country affords; especially in the department of surgery, which she has had but little opportunity to see.

She will return when this purpose is accomplished, to practice medicine in all its branches, and will probably settle in the city of New York.—*National Era.*

A Solemn Thought.—When we look abroad over the great potato patch of the world, we see innumerable hills filled to overflowing with the very smallest kind of "taters," and a feeling of sadness comes over us at the thought that they'd never get any larger!

Let them fight—Honest men will get their dues.

The war between the factions of the whig party is raging with great fury in New York, and Philadelphia. We see that in little Delaware, too, Clayton's pocket state, they are denouncing him and the administration.

In New York city the war almost equals the Forrest and Macready war. The Express, one of the truest whig papers in the state, says:

"The first thing that strikes an old working whig here, in looking over these appointments, is, with one exception, the utter inattention of the cabinet officers, who have advised these appointments, not only to the wants and wishes of the working whigs of the city, but their inexcusable neglect of the whigs who, for ten years past have done the work here in New York, in fair weather and in foul, or who, when the whig party was at the lowest state of depression, have freely given not only their labor, but their means.

* * * * * * *

"If men eminent for their sacrifices and labors are thrust aside to give place to candidates unknown till the victory is certain, and its celebration is over, and if appointments are systematically made upon such unprincipled principles—it is as vain for a whig editor or a whig speaker to attempt to arouse whigs, when their votes are needed, as would be to print a daily journal or to make an oration upon the crusted stones of the Dead Sea, or in the wilds of Oregon."

The Express proceeds to pour out its discontent in the following paragraph which relates to Gov. Young.

"For some weeks past, the merchants and the politicians of this city have been in a fever of excitement lest an ex Governor of this state unknown to our people, alien to all their associations, and against whom intense prejudices now exist, should be appointed Collector of this port. Indeed the appointment if stopped at all, has only been stopped by the most extraordinary exertions, and by the assumption of responsibilities on part of gentlemen who ought never to have been called upon to take them. But the telegraph wires have been watched with intensity of interest and excitement by hundreds in nervous apprehensions, for so great an error might be committed. Whether we are safe from it now or not, nobody can tell, as an atmosphere exists in Washington, around the Cabinet, not of New York creation, so irresponsible to the public, and so devoted to sell that nothing good can come from it."

This Ex-Governor of New York, unknown to the people (he has been appointed Sub Treasurer. What is to be done? The Express tells the the President that unless the offices are given to those who work for the party, the the whigs will refuse to vote hereafter! What a catastrophe!—*Detroit Free Press.*

TEAPEST IN A TEA POT.

A Convention, or General Committee, composed of Delegates from the so-called "Committee of safety" in the several districts of South Carolina, assembled at Columbia on Monday last. The venerable Daniel E. Huger, of Charleston, was chosen President of the body. The various resolutions offered were referred to a committee of twenty-one, and among them were some by Hon. F. H. Elmore, requesting the Governor to convene the Legislature upon the passage of the Wilmot Proviso, or the abolition of slavery in the District of Columbia; others by Hon. F. W. Pickens, affirming the Virginia Resolutions, passed last winter; and others again by Col. Chesnut, involving the policy of "non-intercourse."

The Convention adjourned *sine die* on the 15th inst., after passing various resolutions; among them, one recommending the appointment of a Central Committee of Vigilance and Safety, to be composed of five persons; another, approving of the Southern address; and a third, expressing confidence in the "patriotism, energy and efficiency of the State authorities."

CHOLERA.—HOMŒPATHY.—Six physicians of Milwaukie have come out in a card in the papers of that city, recommending the Homœpathic, in cases of cholera. The Cincinnati Globe publishes a report from Drs. Pattle and Eichman, Homœpathists, by which it appears that they have treated 155 cases of cholera, and in all the cases there has not been a single death! Dr. Peck of the same school reports 88 cases and no death. *Can this be true?—Toledo Republican.*

Correspondence of the State Sentinel.

EVANSVILLE, IND., May 19, 1849.

Eds. State Sentinel:

On yesterday the Hon. Joseph A. Wright made a political speech in the Court House, in this city, to a respectable audience of over one hundred persons, amongst whom were some of the leading whigs in this county. The way Joe made the room fur fly was a caution to Taylor men, especially to *new converts.*—Mr. Wright is an effective speaker at all times and under all circumstances, but he does best when he is chastising at the ends of whiggery or hypocritical Taylorism—the last of all the isms and will stand up just long enough to be knocked down, and no longer. Well, Joe touched 'em up all round; first, the way the whigs had got Indiana into debt millions on millions of dollars, with a system of internal improvements that broke down on their hands, and they had to call on the democrats to help them out of the dirty scrape they had got the people into. (By the way, did you ever recollect that Milton Stapp was one of the figure heads of that beauty of a system, by whose blundering the people were so much imposed on and swindled?) And also that he is one of the figure heads of Taylorism in this State, and that too will break down after having egregiously swindled the people of this country *(!)* Stapp has the *credit* of being a clever fellow and an honest man, but he is the most perfect image of *bad luck* that ever headed a party or endeavored to control a State.

Well, Joe next gave them a turn over the *lowering* of the whig party during the last Presidential canvass, as evinced by their professions of having a *No Party No Friends to reward nor Enemies to punish* candidate, all of which he contrasted with the shameless proscription now progressing throughout the whole country for opinion's sake. Ah, my friend Chrp., I saw whiggery rumbling with shame and guilt under the withering denunciation of Mr. Wright. "YOU HAVE DECEIVED THE PEOPLE. The HANDWRITING IS ON THE WALL. *Taylorism* CAN'T STAND BEFORE THE HONEST INDIGNATION OF A BETRAYED AND INSULTED NATION."

No words can describe the effect of this rebuke. It is not my intention to give you his whole speech. It was a masterly effort and will tell upon the ballot box in August in his favor. I hope he will go into every county in the State. His election is certain if the democrats go to the polls! Our party in this district is united, and besides giving Joe Wright a heavy majority we shall beat that other polished hypocrite, Elisha Embree, *late* M. C.—Embree, who took $324.20 out of the treasury which he *admits* he ought not to have, and then raised the cry of *stop thief!* stop THIEF!—The people will dispose of him forever on the first Monday in August, and in his place they will get an honest man, Nathaniel Albertson. We are rejoicing over the elections in Connecticut and Virginia. Where's Taylorism?—Where's Dehees? Where's McClaughey?—Where's the man who opposed the Mexican war! *Non est.* Truly yours, S.

Private Correspondence of the Ledger.

WASHINGTON, May 2.

Prospective Modifications of the Sub-Treasury.—It is said that the recommendation of Vice President Fillmore, on the subject of Banking Corporations, while comptroller, in favor of the receipt of State Bank Notes, secured by United States Stock, for government dues, meets with favor from Mr. Meredith, and it is believed that some such modification of the Sub-Treasury will be recommended to Congress, at their next session, by the Treasury Department.

☞ We have seen other indications that some such change will be attempted. If accomplished, the principle of the present *ex post facto* system will be abrogated, and Sub-Treasury will be transformed into the worst kind of a National Bank,—a bank based upon the National Debt, both to be perpetuated forever for the benefit of Thieves and Robbers in High Life.—*Ind. State Sentinel.*

A GROWING COUNTRY.—It has been said that ours is a "great and *growing* country," but the truth of this remark is nowhere so strikingly shown as in the fact that the distance between Jefferson, Ohio, and Washington City, has increased *five hundred and nine miles*, in the short period of ten years. It must be equal, we know, that the distance between these two points on the earth's surface, is the same now it was ten years ago, and that the apparent increase is owing to different standards of measurement—the shortest distance being ascertained by the inflexible rule of *locality*, and the longer one by the elastic standard of *conscience*. Be this as it may, it is a fact shown by figures taken from the records of the Treasury Department, that in 1837, Elisha Whittlesey, Representative to Congress from the 20th district of Ohio, charged and received pay for traveling 311 miles from his residence to Washington City, and that his successor, Joshua R. Giddings, charges and receives pay for 509 miles. The increase has however not been the growth of a day or year, but gradual and progressive from 1837 to 1848. The following exhibit of mileage accounts, marks its various stages from one extreme to the other—each item in the swelling series growing more interesting than the one before it, as "*distance* lends enchantment to the view."

☞ As anything relating to the cholera at this time is of interest, we feel disposed to give the following recipe publicity. It is said to have been tried with great success in New Orleans:

CHOLERA MEDICINE—*No Mistake.*—Take a teaspoonful of African Cayenne Pepper, a teaspoonful of Carbonate of Soda, a tablespoonful of Paregoric and one third of a half pint of the best Cognac Brandy; add them together and shake the bottle well. As soon as the bowels become loose, or the cramp is felt, &c., take a tablespoonful of the mixture in a little hot water every half hour until relieved.

This preparation is intended for only one person; families should add in proportion to the number of their family, and have the same ready prepared. It. B.—In all cases the patient should or kept warm in bed.

The price of all the ingredients should not exceed 25 cents. Anything to the contrary notwithstanding.

☞ A lad in California, recently sent home to his mother a tank bottle full of gold dust, with the accompanying letter:

"*Dear Mother*—I have only just time to say that I send you a bottle of gold dust. I would send you more, but I can't, because bottles are very scarce in these diggins."

A New Port for the Lake Trade.—We have seen a letter to-day, from a Montreal House, addressed to one of our most eminent merchants on the river, advising the arrival there of the schooner California, from Lake Erie, with eleven thousand bushels of wheat. This is, we believe, the first cargo received at that port by a sail vessel from the Lakes, but it will doubtless be steadily followed, until a voyage from Chicago or any other port on the lakes, to Montreal, will be as much an every day occurrence, as it is now to Buffalo or Oswego.

Every additional extension of the length of navigation arising from the Lake trade, adds a proportional value to the shipping engaged in its commerce, and the admirable canal navigation around the several rapids in the St. Lawrence river between Kingston and Montreal, removes all hazard's to vessels and their cargoes, inviting our merchants and shipowners to extend their trade to Montreal and Quebec. From thence it is a clear run to any part of the world when the free navigation of the St. Lawrence is yielded by Great Britain. Many of the leading houses in Montreal are anxious to push their trade or the Western Lakes, and various shipments of Mackerel, Tanners, Whale, and other Oils, with some other articles of commerce, have been received at this and other ports with like advantage to shippers and consumers. A large portion of the iron for the Cleveland, Columbus, and Cincinnati Railroad has been ordered from England via Quebec to this port, being a much cheaper route than by way of New Orleans, and the purchases yet to be made for the road, will doubtless come by the same route.

Our Commercial men will gladly welcome a closer fellowship with the mercantile interests of Montreal, and we should like to wake up a short time in 1950 just to see the difference in the commercial relations between the two places then and at the present day. We will promise to "turn in" again without grumbling as soon as our leave of absence is expired.—*Cleveland Herald, May 21.*

WELLAND CANAL.—Much activity prevails on this canal in the completion of the new works, under the direction of Mr. Killaly.—At the Aqueduct, (says the St. Catherine's Journal,) we noticed operations to finish what remained undone. In the Swamp they were all alive. The new cut is a noble piece of work, and we hope to see it brought into requisition before the season closes. If superior abilities and untiring exertions will accomplish this purpose, it will be done under the management of the present superintendent of the Canal.

Opening very early, there has been a larger traffic through it, up to the end of April, than to the same date in any former year. In 1847, the number of vessels through, at that time was 153; and in 1848, 141. The number this year was 196—of which 147 were bound to American, and 49 to Canadian ports—132 of the former and 31 of the latter proceeding upwards.—*Cleveland Herald.*

Detroit, St. Lawrence and Lake Champlain.—We noticed a short time since that the propeller Earl Cathcart was loading in this city with a cargo of produce, destined for the towns on the St. Lawrence, Montreal and the Green Mountain Boys. The Montreal Pilot of the 26th says she had arrived at Lachine with a cargo of flour and pork to the Chamberlain and St. Lawrence Railroad Co. the property of J. Hatch, Burlington. This is the first of a line of steamers about to be put on for the conveyance of the produce of the Western States to the waters of Lake Champlain. By the route of the St. Lawrence, freight from Detroit can be delivered at Burlington fifteen days quicker than by the Erie Canal, at great saving of expense.

This produce was all purchased in this market, and the first shipment of the kind ever made. The trade is destined to be an important one.—*Detroit Free Press.*

INGENIOUS ESCAPE OF A THIEF.—In consequence of the statement of a convict in the State Prison at Charlestown, the City Marshal and Warden went with him to Barnstable to procure fifty thousand dollars of stolen money, thirty-four thousand of it belonging to the Wheeling Bank, which was robbed sixteen years ago. The President of the Bank was sent for and came to Charlestown, and was also deceived by the rogue.

In a piece of woods the search commenced, and a hole four feet deep was dug straight down, then an excavation four feet to the right was made. The convict, who had been digging, got the marshal to take his place. The idea struck Mr. Nichols, the marshal, favorably, and he readily assented to the proposition, descended the ladder, entered head foremost the sideway passage excavated by his disinterested fellow laborer, and commenced removing carefully the earth supposed to be in the immediate vicinity of the treasure.—The warden, bending over to receive the money as it was to be handed up, was suddenly pushed head foremost into the well by the convict. He instantly threw a quantity of dirt in upon them, much to the detriment of their eye-sight, and taking to his heels, effected his escape—leaving the two officers to get out as they could, with their labor only to reward their adventure.

Phillips fled, and so successfully secreted himself that all search for him was in vain, and the warden and Mr. Nichols returned to Boston, and caused to be published an advertisement offering a reward for Phillips' Mr. Nichols was so badly hurt by the warden's falling upon him in the pit, that he has not been able to leave his house since his return to Charlestown.

Strange—but True!—Most of our readers recollect that some months ago, a man named John Scott, professing to be deaf and dumb, met with a serious accident in this place.—Since that time, he has been treated by some of our citizens as an object of sympathy. He was scribbling under the severest pain, and both deaf and dumb, he could only express it by signs. He deserves be recovered mail, with the assistance of crutches, he could walk his room. About this time, he was taken with typhoid fever, which reduced him so low, that, after a time his life was despaired of. Up to Sunday night there was no change, until sometime during the night, Mr. Covington, the gentleman at whose house he was staying, was awakened by a noise in the sick man's room. Fearing something had happened him, he went up immediately, and—strange as it may seem—the deaf and dumb man was talking, and could hear! as perfectly as any one. Since he began to talk, he says he was about four years old when he lost the power of speech and hearing, and has remained so for twenty-four years. We know not what to say. It strikes us as one of the most singular occurrences on record.—*Rutherford (Tenn.) Telegraph.*

Another Invention.—A learned Belgian, M. Mainple, has recently discovered a very simple means of distinguishing between real and apparent death. It consists in creating a small burn: if there is life, a blister is always formed, even in the absence of apparent sensibility. If death has already intervened nothing of the kind occurs.

THE CHOLERA.

Ed. Chicago Democrat:

SIR.—The municipal authorities having announced the presence of the Asiatic Cholera in Chicago, every means calculated to prevent its extension in families should be resorted to. Whilst the Board of Health are instituting measures of cleanliness, I would suggest that all families procure and mix the ingredients for disinfecting their houses with chlorine gas—the best disinfective known. The chloride of lime and the chloride of soda are unnecessarily expensive for this purpose and evolve slowly. The poorest families may well afford the expense of generating chlorine gas from the following ingredients:

Half a pound of manganese (not over six cents,) half a pound of common salt (in every family,) one pound oil of vitriol (not over six cents,) one pound of water (at hand) mixed all together in an earthern or stone jar and stir with a stick. Chlorine will be evolved largely from this mixture for a week, and will diffuse itself all over the house. If to plentiful open the doors and windows and let in fresh air. The only inconvenience will be coughing. Stir the mixture daily, and do not allow the jar to stand in a confined sleeping room, but allow ventilation. This is the mode or process for generating chlorine for the preparation of chloride of lime and also for bleaching. Workmen accustomed to bleaching operations stand an atmosphere highly charged with chlorine without detriment. It destroys vegetable colors, putrid odors, and infectious nuisances. It rolls all poisonous effluvia, miasmatic vapors and stenches, or moisture, or hydrogen for which it has a powerful affinity, and thus corrects the putridity of jails, hospitals, penitentiaries, ships, barracks and all ill ventilated places by decomposing putrid matter in vapor. Were it kept constantly on hand in every house for weeks it might prevent the extension of cholera in this city.

H. L. KNAPP.

Every house and store in town should procure the chlorine gas. The earthern or stone jars can be procured at a trifling cost. The cost of the mixture, will not exceed 12½ cents per week.

CHOLERA PRESCRIPTIONS.—In our paper of a few days ago we gave a prescription for those who desire to keep medicine on hand, to be used in the preliminaries stages, and before the arrival of a regular physician. We have since observed the following remedy more highly spoken of. Several physicians have advised that the quantity of brandy be diminished in solution to the other ingredients, viz:

1 ounce of gum guiacum;
½ " of ground Cloves;
½ " of ground Cinnamon;
1 pint of best Brandy.

Dose, a table spoonful, each half hour, till disease is arrested.

Some recommend from five to ten drops of Laudenum to be mixed with each dose.—*Lafayette Journal.*

WOUNDS ON TREES.—To make the bark grow over wounds and diseased places on forest and fruit trees without fail and with speed. When a branch is cut off, or a tree otherwise wounded, make the place smooth with a sharp knife, and if the tree be deciduous, either cut away the part affected, or scrape it out until you come to the sound wood. In all cases make the surface as smooth as possible. Then put a half a pound of tallow into two pounds of tar, and warm it over the fire till the tallow is just melted in the tar, when one ounce of saltpetre should be added, and the whole stirred well together; the composition should then be laid on the part that you want to heal.—This has been found, by long experience, to be an effectual cure, and superior by far to any thing yet practiced.

REMEDY FOR BOTS.—Having seen many horses die with bots, and many remedies given without effect, I was induced by a merchant in Cambrige to try the following for a horse of my own, after I had tried most of the remedies in common use without effect, and had given him up for lost:

Half pint vinegar, half pint soft soap, half pint gin and half pint molasses, well shaken together, and poured down when foaming.—To my great surprise, he was in five minutes wholly free from pain and ate very freely—the next morning I was on my journey. I have since recommended and given the same in perhaps fifty cases, with the same good effect; not in one instance has it failed to effect a perfect cure.

Great Gold Items.—The Boston Chronotype publishes a letter from Mr. Andrew Porter, brother of one of the publishers of that paper, and formerly a printer of that city.—Mr. Potter, previous to the breaking out of gold fever, was Sheriff of Honolulu, but, with a number of others, started for the gold regions. The letter is dated Honolulu, Dec. 15, and says:

"I have made two trips from here to California with goods, and have realized a very handsome return. Some individuals have accumulated $2,000 in a single day, of pure gold; and many, one, two and three hundred a day, regularly. Vast numbers of the miners have died from the exposure, dissipation and violence. But thousands from all quarters of the earth are gathering in to take their chances of accumulating wealth or meeting a premature death."

Equality.—A cotemporary very justly remarks notwithstanding all the full fuss we make about "equality" in this country we are sadly humbugged on the subject. The fact is, and we can see it theoretically speaking, all men in good society are endowed with certain indescribable ghis except poor men. All men who do not pay their honest debts are great scamps, except those who cheat on a large scale. All men are great sinners, except those who belong to the church. All men are allowed to think and speak freely, except those who are not orthodox. All men are gentlemen, except those who work for a living. All well-dressed and accomplished women are ladies, except factory and servant girls.

How the Ladies manage matters in Napoleon.—The village of Napoleon "on Maumee, (on Maumee," must be rather a dangerous place for unmarried men to visit, if the following story is true. We copy from the Maumee River Times.

Rather a novel marriage took place at Napoleon in Henry county a few days since. It grew out of a dance given by a young damsel to a select company of young ladies and gentlemen, that she would marry any young gentleman present and pay for the license too, if he would agree to the contract. A young "spark" present finally summoned enough courage to accept the proposition, whereupon the damsel in question immediately dispatched a messenger to procure the license and engage the services of a justice of the peace, and the marriage ceremony was duly performed. But what rendered the marriage a little singular was the young man after the nuptials, peremtorily refused to avail himself of his matrimonial privileges. It is hoped however that with one persuasion he will "come to."

A sad case.—A metropolitan housekeeper recently advertised for a new nurse. A young Irish girl offered herself.

"How old are you, Bridget?" inquired the lady.—"Sixteen, ma'am.

"Have you ever had a baby?"—"No, ma'am, but I was very fond of them."

"Then I am afraid you will not do."

"Oh, please ma'am, I know I'll do; very apt to catch."

The Burnt District.—Mr. B. Saunders has already erected a bake shop on the site of his destroyed building and will have his oven in full blast on Monday. Arrangements are already in progress to rebuild the whole block.

☞ The Canal Navigation has been interrupted a few days, in consequence of repairs on the lock at the twelve-mile level. The repairs are completed, and navigation will be resumed to-day.

Grand Whig Fizzle.

The whigs of this district had rather a rich time at their abortive attempt at a convention last Saturday. Only seven counties were represented, and the meeting broke up without making any nomination. This untoward result is attributed to the manœuvres of Judge Kilgore, who induced his friends to stay from the convention, hoping by this course to drive the whigs into his support, and compel them to run him as their candidate. In this, if we may judge from the feeling manifested by the whigs here, he will find himself disappointed. Allen Hamilton, Esq. of this city was the undoubted choice of a large majority of the whigs present at the convention, and his friends will not brook the way in which Kilgore has insulted him off the track, nor do they feel under any obligations to support a man who refused to submit his claims to a convention, but was resolved to rule or ruin.

Our neighbor of the Times is in quite a quandary; he has not yet received his cue, and does not know what course to take, and consequently he says nothing about the convention, except that it adjourned after passing some resolutions, which he will publish as soon as received. He does not even hoist the name of any candidate for Congress. We hope in his next he will be able to define his position.

The Huntington Herald shows more decision and independence, and the name of SAMUEL MAHON is proudly displayed at his mast-head as the candidate whose claims for Congress he advocates. Mr. Mahon's honorable course in the convention offers a strong contrast to that pursued by Kilgore, and gained him many friends. We should not be surprised if he were to be taken up as the regular whig candidate, if he will consent, in the present distracted state of his party, to run. In this portion of the state, he would certainly outrun Kilgore, who has forfeited all claims to the support of the whig party. We hope however Mr. Mahon may have prudence enough to decline. He is a good fellow, and he should be sorry to see him exposed to the overwhelming defeat which inevitably awaits the man who runs against the democratic nominee in this district.

ARREST.—Charles Burkowsky and Catharine Smith were arrested on Thursday night at the Washington Hall, in this city, by the Sheriff of Allen County, and officer Patterson of Pittsburgh (who followed them from that city). They were charged with stealing a large sum of money and a gold watch from Leopold Sahl. The pursuers recovered the watch and about $250 of the money. The "skirt" of the lady on being examined turned out a real California "placer"—as the officers got some fifty or sixty gold pieces out of it, of the denominations of ten and five dollars, and five francs.

The parties were taken before his honor the Mayor: from thence the case was removed before Esq. Dubois, who after hearing the evidence adduced, discharged the woman and committed the man to await the requisition of the Governor of Pennsylvania, in which state the offence was committed.

A quantity of skeleton keys and other burglar's implements were found in Burkowsky's pack.

New Orleans overflowed.—Accounts from New Orleans, by telegraph, to the 30th state that the water is still rising, and almost the whole city is flooded. The cholera is again raging with great violence.

We notice the Times announces the name of CHARLES M. MUHLER as a candidate to represent this county in the next Legislature. This nomination, the Times thinks, will disprove the "foul slander" that the whigs are opposed to the elevation of foreigners to office, and will induce that class of citizens for the future to act with their *true friends* the whigs!! That the nomination is made with that view, we have no doubt; the article of the Times clearly shows it: but that the naturalized citizens can be thus easily induced to overlook the notorious fact that the whigs as a party have uniformly aided the natives in their proscriptive efforts to oppress all foreigners who seek an asylum in this country; or that they will consider this solitary act of injustice—the interested motives which induced it, being so apparent—as a proof that the whigs are their "true friends," is a little more than we are prepared to swallow. We think the naturalized citizens are too acute to be thus duped. The very attempt, thus haughtingly made, is a direct insult to them, and shows that their new made *true friends* still underrate their intelligence. Whiggery is getting into rather a tight place here, and has to resort to despicable expedients to keep its head above water; but in this case the trick has been too laughingly done—it is too transparent, and the motive too visible, to be successful. A trick of this kind, to succeed, requires a more adroit operator than the editor of the Times.

Mr. Muhler is a very worthy man, and will probably receive the votes of the few of his countrymen who are in the habit of voting the whig ticket; but the democratic portion of them will, we are convinced, maintain their political integrity, and not suffer themselves to be duped by this shallow device. They are not to be tempted to vote for a whig candidate merely because he happens to be a countryman, nor to forswear their principles because a few scheming demagogues have seen fit to coax such a man to allow himself to be made their tool. Unless we are much mistaken in Mr. Muhler he will not himself expect to receive a single democratic German vote; and he may esteem himself fortunate if he receives all the votes of the native whigs. It will be hard for some of them to give a vote for a naturalized citizen.

VIRGINIA ELECTION.—The Times takes us to task for crowing over the glorious result of the Virginia election, where we elected 14 out of 15 members of Congress; and contends that this is not consistent with the free soil resolutions adopted by our convention last week.—We cannot see the force of our neighbor's reasoning. On the vital questions of the Tariff, the Sub Treasury, and a National Bank—in opposition to all federal schemes of extravagance, and legislation for the benefit of favored classes at the expense of the community at large—the Virginia democrats are certainly with us, and opposed to Taylor's administration. Does the Times contend that because they do not agree with us on the single question of slavery, they ought to be classed as whigs? Is this to be the test? The whigs in favor of slavery, and the democrats opposed to it? We are perfectly willing this should be the issue, but we did not expect to see a northern whig paper openly avow such a doctrine, though it may be the true one.—The whig President is a slaveholder, and was elected by the slave power as the champion of its interests, and the party, in the north as well as in the south, may feel bound to sustain him in that position. But if so, the free citizens of Indiana would like to be informed of the fact. Please explain. Give us light, Brother Withers. There is certainly (to reply to the Times's concluding query) something out of place.

Harlan in La Grange Co.—A friend in La Grange Co. writes:—

"I have just heard of the nomination of Harlan for Congress. He will run well here; there are a number of his Grant Co. friends residing in this town, who will vote for him, although they are all whigs."

OUR CONVENTION.—The Western Union, a neutral or independent paper, published at Marion, Grant Co thus speaks of our convention, and the manner in which the nomination of Mr. Harlan is viewed by his neighbors—who certainly ought to be the best judges of his qualifications:

"We are informed the utmost harmony and good feeling characterised the proceedings of the convention, and the nomination of Mr. Harlan was acceded to most cordially by the other candidates.

"It is in accordance with the independent character of our paper to say, that WE REGARD THE NOMINATION OF Mr. HARLAN AS THE BEST THAT COULD HAVE BEEN MADE BY THE DEMOCRATIC PARTY; AND THAT IT IS SO REGARDED BY ALL PARTIES HERE.

THE CHOLERA.—The cholera appears to have subsided in Cincinnati. On the 29th the city was reported free from cholera, and on the 30th one case only was reported. In Louisville, too, the disease is disappearing. In St. Louis it still rages. One steamboat last 70 passengers by cholera between St. Louis and Jefferson City.

There have been a few cases of cholera in New York.

CANDIDATES FOR CONGRESS.

The following is a list of candidates for Congress in this State, in all the districts which have made their nominations:

	DEMOCRATIC.	WHIG.
1st Dis.	Nat. Albertson,	E. Embree.
2d "	C. L. Dunham.	W. M. Dunn.
3d "	J. L. Robinson,	Jos. Robinson,

10th "	A. J. Harlan,	S. Mahon,

Hon. Elisha Whittlesey of Ohio, has been appointed first Comptroller of the Treasury in place of James W. McCulloch resigned.

It is thought that General Taylor will not recall General Lane before August next, for fear that it will have a bad effect for Taylorism upon the elections in this State. General Taylor tried that experiment in Virginia, but it would not answer. He and his party may as well come down for an outraged people will not longer sustain a party which obtained power by such means as did those who now stand in the high places of our government.—*Madison Courier.*

Noble County Democratic Convention.

Pursuant to public notice, the delegates from the several townships of Noble County met in Convention on Saturday the 19th day of May 1849, at the Court House in Albion. The meeting being called to order, the Hon. Erwin Randall was called to the Chair, Andrew Nelson Prentiss chosen Vice President, and William E. Lovell, Secretary.

After the object of the meeting had been explained, on motion the convention proceeded to ballot for a candidate for the office of Clerk, when Nelson Prentiss having received a majority of all the votes cast, was unanimously declared the candidate for said office.

Mr. Prentiss now came forward, and in a few remarks returned his thanks to the convention for the distinction; which was heartily responded to by the meeting.

The convention then proceeded to ballot for the other offices to be filled, which resulted as follows:

For Probate Judge—Harrison Wood.

For Commissioner—Otis Allen.

For Prosecuting Attorney—Stephen Wildman.

The following persons were then appointed as delegates to attend the Senatorial Convention to be held at Angola on the 23d day of June:—James Long, Nelson Prentiss, H. H. Hitchcock, W. E. Bowen, D. B. Herriman, Noah J. Hill, N P Eagles, Andrew Currey, M. M. Mariam, Samuel Minot, A. M. Gifford, Harrison Wood.

Also, the following persons were chosen delegates to the District Convention at North Port: David Wiley, James Long, S. Benton, John McDavitt, Andrew Currey, J. A. Colwick, F. Miller, Olin Williams, S. Southward, J. C. Alvor, Jesse Sweet, N. P Eagles, Richard Stone, John Earnhart, Nelson Prentiss, Ralph Hardenbrook, William F. Engle, J. Lanman, Edwin Rasdall, J. M. Gifford, Timothy Adams, Stephen Shaw, William Demey, Isaac Curtis, James McConnel, James Dungan, J. F. Brodwell, Daniel Hathaway, Samuel Carroll, Elihu Wadsworth, Jonas Strouse, S. T. Clymer.

On motion, it was ordered that any delegate not being able to attend any of the conventions have the power to appoint a substitute.

The following persons were appointed a Central Committee for the ensuing year:—Nelson Prentiss, Jerome Sweet, William F. Engle, Harrison Wood, H. H. Hitchcock.

Hon. S. T. Clymer now came forward and presented the resolutions, which were adopted by the meeting:

Whereas, The slaveholders of the south, by an alliance with the disaffected of all parties at the north, have been the means of placing in the Chair of State a southern slaveholder, whose only qualification for the office was his participation in a war which his supporters denounced as unholy, unjust, and abhorred of God, the sole purpose of which was robbery and plunder.

And, *Whereas*, Before the election he had no principles for the public eye, but was "all things to all men, that he might gain some;" and since his elevation to trust and power has showed himself one of the most ultra of partisans by proscribing from place every democrat who could not conscientiously support him.

And, *Whereas*, We as democrats have no confidence in Zachary Taylor on the subject of *free soil and free territory*, it becomes the duty of every northern democrat in Congress to urge the adoption of the principles of the Wilmot Proviso in any law for organizing the territories of California and New Mexico.

Therefore, *Resolved*, That we, as democrats of Noble County, will not support at the approaching August election any man who will not use his efforts against the introduction of domestic slavery into any of the new territories belonging to the United States.

Resolved, That as we have been beaten in 1848 by an unholy combination of influences, that we will double our diligence and do our whole duty, and give the whig party such a rout, in 1850, as they have always experienced at the end of four years.

Resolved, That it is the duty of every democrat of Noble County to give in the ticket this day nominated a cordial, hearty, and undivided support, and a long pull, a strong pull, and a pull altogether.

On motion,

Resolved, That the proceedings of this meeting be signed by the officers and published in the Goshen Democrat and Fort Wayne Sentinel.

ERWIN RANDALL, *Pres't.*
A. CURREY, *Vice Pres't.*
WM. E. LOVELL, *Sec'y.*

From the Logansport Pharos.

LOGANSPORT, May 28, 1849.

S. A. BALL:

I am informed that a statement is made in the Indiana State Journal of last week, that I am electioneering for Joseph A. Wright for Governor. I wish you to state in your paper that the charge is false. I have as yet electioneered for no person—but when I do, it shall be for James H. Cravens, and no other person.

A few weeks since, on the canal packet, a few worthies from the lower Wabash most *villainously* slandered the private character of Joseph A. Wright; and as Mr. Wright and myself have been for a long time intimate friends, I thought it my duty to correct their statements. I did so and I suppose this is the foundation of the charge.

As a man I respect Mr. Wright; and if his private character is slandered in my presence I shall defend him—and I hope I can do so without being considered as electioneering for him.

JOHN W. WRIGHT.

☞ The Fort Wayne Sentinel says, the rumor published in the Western Union a few weeks ago, that the cholera was in Fort Wayne, "is wide of the truth," and asks "Will the Union please inform us who originated the rumor?" the Sentinel supposes we obtained it from certain individuals to whom it alludes, which in this case is a very natural supposition—but it happens not to be correct: Dr. Mills, a very respectable gentleman of Warren, gave us the information, the doctor might have gotten his information from those *posts*, can't say as to that, we are glad to learn however that there is no cholera there.—*Western Union.*

☞ The *Positive* of Rome states that the following are some of the terms imposed by France, on the Pope, as one of the conditions on which they will aid his return to Rome: a general armistice, a complete secular government, inviolability of political liberty, abolition of the holy office and ecclesiastical tribunals, except in the matter of the clergy, and the suppression of proprietary religious orders.

ARRIVAL OF THE CALEDONIA.

The steamer Caledonia arrived at Halifax on the 25th. She brings 50,000 sterling.

LIVERPOOL, May 12th.

The heavy feeling which prevailed previous to the sailing of the steamer still continues.—Sales 22s. 6d. per bbl, has been accepted for considerable parcels western canal. Sales Baltimore 23s. prime Ohio 23s 6d. Indian Corn is improved, 31 a 32s. for white. 33s. 6d. a 34s for yellow, with moderate demand.

ENGLAND.—The Bill providing for the modification of the navigation laws, has been carried in the House of Lords, by a majority of ten, in favor of the minority. This result has given the Whig minority a new tenure of office in the House of Parliament. Another Bill, having for its object the removal of the Jewish disabilities, has been read a second time by larger majority than before. Mr. Roebuck is about to bring before Parliament his plan for the better government of the British Colonies. He has also moved for a committee to ascertain the amount of debt due from foreign Governments to British subjects. On the list of the Court of Errors, were the causes of O'Brien and McManus, without hearing—counsel for the crown. The Judges decided unanimously that the errors assigned by the Plaintiff's counsel could not be maintained. The judgment of the Queen's Court, stands affirmed, and the prisoners will probably be transported the 1st of June. It is rumored that Duffy's prosecution is to be abandoned.

GERMANY.—The quarrel between the Parliaments throughout Germany, and the respective Princes have reached the highest pitch.

In Lugany conflicts have already taken place. The fight was decided in favor of the people, who fought with the troops for seven hours. Great loss of life. The Railways were displaced to prevent troops from Berlin from crossing. A sufficient Russian force arrived, and tranquility was secured by military force. The fight was resumed the next morning, and the deadly warfare was going on at the latest advices. Intelligence from Dresden to the 8th, says that hostilities raged between the Royal Arch Duke and the people.

Disturbances had occurred at Leipsic between the people and military, but the former had been subdued after a short struggle.

An insurrection had broken out at Breslaw on the 26th. The people and the troops were fighting in the street,

AUSTRIA AND HUNGARY.—In the midst of all these commotions, the Austrian Government was in danger of dissolution, from the continued successes of the Hungarians, who had taken Bruner and Reyiss. The Russians were in the meantime converging in great force. The Hungarians are excited to the highest pitch of enthusiasm, and declare that Austria and Russia combined could not subdue them. Efforts are being made to stir up a rebellion in Jallsen, and in fact the whole country from Posen to Pesth, are either involved in or on the brink of revolution.

England and France have indicated their disapproval of the Russian intervention in Hungary.

The French Army Defeated in Italy!—Advices from Paris state that the check the French troops met in the Papal States has moved France to the centre, and touched her people upon the most tender point. The particulars of the battle in the Imperial City are given. The French General marched on the 27th of April from Cevita Vecchia to Rome, but meeting more opposition than he expected, he halted a short distance from the city, awaiting the arrival of the rest of the expedition. The Roman Assembly on the 26th tendered the Triumvirs the safety of the Republic, urging the necessity of a force to repel the French. Barricades were erected, and every preparation made to defend the city.—The Central Committee protested against the entrance of the French into Rome, threatening to blow up the Vatican and St. Peter's.—The French replied that the orders were imperative, and they would enter Rome forcibly if necessary. They accordingly entered the city, and were received by a volley of musketry and missiles, and were forced to retreat with a loss of two hundred killed and five hundred wounded. The English accounts state that the French did not enter the city, but were whipped at the gates with six hundred killed! The French prisoners declared themselves tricked into the expedition, and believed that they were going to fight against the Austrians.

General Oudinotte was taked prisoner, and rescued with difficulty.

Upon the reception of the news in Paris the President addressed the following letter to the French General:

NATIONAL PALACE.
May 8th, 1849.

Dear General—The telegraphic news announcing the strong resistance which you have met under the walls of Rome, has greatly pained me.

I had hoped that the inhabitants of Rome on opening their eyes to evidence would receive with eagerness an army which had arrived to accomplish a friendly and disinterested mission, this has not been the case, our Military and National honor is injured, and I will not suffer it to be impugned, for reinforcements shall not be wanting to you. Tell your soldiers I appreciate their bravery, and take part in what they endure—they may always rely on my support and gratitude.

My Dear General, receive the sentiments of my highest esteem,

LOUIS NAPOLEON BONAPARTE.

A private letter published in the Paris National Reformer, contains statements of the loss of the French in Rome, up to the 24.—Rome remains unsubdued. An exchange of prisoners has been effected. The Roman Government has placed Aceni under siege; Berlan is declared in a state of siege; Military rule has entirely prevailed; Disturbance have been suppressed but are momently expected to break out again.

GERMANY.—An insurrection at Cologne is hourly expected. The city is greatly agitated. Militia and King's troops had come in contact at Alberfet, during the recent outbreak, and the whole of the Rhine Provinces are in an excited state, ready to explode like a train of gunpowder. The armed militia are disaffected toward the King of Prussia, and in favor of the Frankfort Assembly.

The King's troops at Hanover were overpowered in a collision with the Students of the Polytechnic School. The King subsequently fled.

The Hungarians are forming an army of 100,000. They will crush Austria, unless Russia sends large reinforcements. Jellichich's army is reported to be entirely devoured.

Late news state that the Danish and Schleswig quarrels will be amicably adjusted. The Russians were being penned into Austria.—The Emperor has returned to the capital, and was received with every symptom of enthusiasm.

PROBABILITY OF A GENERAL WAR IN EUROPE.—The New York Commercial Advertiser, whose maturely considered opinions on European affairs are always deserving attention, in discussing the probable results of the Russo-Germanic War now raging in Hungary, arrives at these conclusions:

Unless the Hungarians are thoroughly and hopelessly crushed in a single battle and at an early day, there is strong probability of something very like a general war in Europe, the termination of which it is not easy to foresee. It is a lamentable thing to feel and acknowledge: but the conviction can hardly be resisted that Europe is in a diseased condition, the remedy for which is to be found only in a severe and terrible application of surgery.—There is a mass of festering corruption among all those Kings and abettors of Kings, among those rulers and standing armies and aristocratic interests, which must be cut away before the nation can know permanent peace or welfare.

This is, indeed, lamentable, but not less so is the fact—and such all history proves it to be—that no great political revolution resulting permanent, substantial reforms, was ever achieved except by toil, suffering and blood.—Men must love freedom and its attendant blessings well enough to peril their lives in battle for it or it will never be attained. Revolutions are no holiday work, and when, last year, almost each successive steamer brought the news of a revolution achieved in a week, a day, or in some instances, in a few hours, we had no faith in the stability of grand political changes wrought with the rapidity and seeming ease of the changes of pictures in a magic lantern. Blood, but human blood, poured out like water, is the only cement that can be relied upon to make firm and secure any fabric of government that is not slowly and gradually built up in obedience to the slow development of popular ideas. We cannot doubt that with the progress of general enlightenment freedom will eventually overspread the world. But the nations are not yet prepared for it, and they must be tried as by fire before they will be. Who that is acquainted with the condition of France can feel any confidence in the stability of the existing republic. The French people have not been educated up to the point of sustaining it.—They evidently shrank from the toils, dangers and sacrifices necessary to carry through to a successful conclusion the impromptu revolution of February, 1848, and have since been relapsing to the old regime disguised under a new name. The grand idea of a real revolution is, however, working and fermenting in the minds of the masses not only of the French people but of the Continent generally. It may be crushed, but if it be speedily, it will gain consistency. Men will see more clearly than they have what their real wants are, and seek the remedy. Then will come the strife, desperate and bloody.

IMPORTANT LAW SUIT.—The Circuit Court has been occupied, for several days past, in the trial of a civil case of some importance.—The circumstances, if we correctly apprehend them, are as follows: Some five years ago, when many believed that the Branch Bank at Indianapolis was extensively engaged in shaving operations, a purchase was made by the Bank from one Bushnell, of bills of exchange on New York, to the amount of $19,000.—Bushnell acted as the agent of a firm in Detroit, and procured a letter of credit, or something which the bank regarded in that light, from Jesse L. Williams, of the firm of Hamilton & Williams, Fort Wayne. A similar letter from Bowbridge & Mix, Lafayette, to S. Merrill, was also said to be the bank managers. The transaction was soon ascertained to be a regular *kook in*: the drafts were good for nothing. The bank, by good luck secured upon certain property, purchased by Bushnell, and now enters suit against Hamilton & Williams, for the balance, and interest, say $8,000. Their responsibility turned upon the real character of their letter, presented to the bank by Bushnell, as to whether it was technically a "letter of credit" or not.

After a long and laborious investigation, the jury returned a verdict in favor of the defendants, and against the bank. An appeal will be taken to the Supreme Court.

S. Major, H. O'Neal, and S. Yandes, for the bank: O. H. Smith, Z. Baird, and W. Quarles, for the defendants.—*Ind. State Sent.*

☞ The Richmond Whig, in some remarks on the Canadian riots, says:

"It appears to us very doubtful, to say the least of it, whether England ever will reclaim her refractory colony. She will then no doubt, be seeking admission into the Union—craving to be annexed—and that, we suspect, will be her ultimate destination; for it is not in the hearts of our annexationists to refuse such a splendid gift as this would be. For our own parts, we are Southern men, and regard the north as already sufficiently powerful, for any service it will ever do us. We wish to see no annexation IN THAT quarter, at least.

No doubt you are opposed to "annexation," and your miserable, selfish, sectional cry about the "North already sufficiently powerful," is but the pitiful slang of secret hostility to the growth of this great Union in any quarter.—It is but the thread bare story of "no more annexation," preached by your party for a half a century. Away, then, with such pitiful stuff.—*Ohio Statesman.*

☞ Messrs. Wright and Matson, the democratic and whig candidates for Governor, addressed the people at the court house last night. Each gentleman spoke for an hour, and then had half an hour for reply. Mr. Matson led off, and made a tolerable speech for a whig; indeed the whigs began to chuckle, and one would suppose, from the appearance of their physiognomies, that they considered Matson "some pumpkins." But, alas and alackaday! when Mr Wright rose to reply, all the whigs present, Mr. Matson included, looked as though they could crawl thro' a buttonhole with all imaginable ease. Mr. Wright is a most able and energetic speaker, and in him the democracy of Indiana have a powerful champion.

Mr. Wright's closing address was a most brilliant effort, frequently calling down the enthusiastic applause of the audience. His allusions to the services of Gen. Joseph Lane were responded to by such volleys of deafening and universal shouts and cheers as to clearly show where the hearts of the people of Indiana are. The slanderer who sits in the chair of State at Washington might justly learn a lesson if he could for a moment listen to the shouts of an honest Indiana audiatory when the name of gallant JOE LANE is mentioned.—*New Albany Democrat.*

☞ We yesterday published a batch of removals and appointments just made by the Taylor administration, several of which are for Indiana. Messrs. Wise and Mayes, the able and competent land officers at Vincennes, are removed, and Messrs. Carman and Clark appointed in their places. Carman, one of the appointees, is a broken down political hack, who, though living in a county giving three hundred whig majority, has been repudiated over and over again, when he presented himself as a candidate. He also has the reputation of being a very intemperate man.

Old John Ewing, also a broken down hack, is transported from Vincennes to Crawfordsville, to take the place of Mr. Rusk, removed. Here is another beautiful commentary on Taylor professions. It was early proclaimed as the settled policy of the administration, that men would not be taken from one place to fill offices in another. Yet, in Indiana, we have seen this rule violated in two instances. Dan. Sigler is taken from Greencastle to fill an office in Pulaski county; and now we see Ewing, a man who is hated and despised by his own party—who was denounced in the most furious terms by the National Intelligencer, the Vincennes Gazette, and other whig papers, as unworthy of confidence—is to be taken from Vincennes to fill a Crawfordsville office. Why is this? Can it be possible that Montgomery county, containing more than three thousand voters, has not within her borders a man capable of filling the office of Register? No sane man can suppose such a thing. But here is the reason. The borough of Vincennes contained three men who must be provided for, while there were but two offices located there; hence one of them must be sent elsewhere, and old Johnny Ewing is sent to Crawfordsville. What a beautiful commentary does all this present of the consistency, the sincerity, and the honesty of a whig administration, which came into power pledged to "No Proscription," to make Honesty and Capacity the test of Executive favor, and to fill the offices with citizens of their respective places.—*New Albany Democrat.*

NEW YORK, May 15—3 P. M.

Verdict on the Rioters.—The jury in the case of those who fell during the *Astor* Place riot, after a long consultation came in late last evening with the following verdict:

"We believe that George A. Curtiss, John McDonald, Thomas Aylward, George Lunsdin, Timothy Burns, Henry Otten, Gen. W. Brown, Wm. Butler, George W. Taylor, Owen Burns, Thomas Bullman, Neil G. Willis, A. F. Collins, William Arwin, Thomas Reardun, Matthew Cahill, and Geo. W. Godfrey, came to their deaths by gun shot wounds, fired by the military during the riot, below the Opera House, on Thursday Evening, 10th May instant, by order of the civil authorities of the city of New York; and that the circumstances existing at the time justified the authorities in giving the order to fire upon the mob. We further believe that if a large number of the police had been called out a resort to the use of the military might have been avoided."

Howland and Aspinwall have received dispatches from New Orleans announcing steamers Oregon and California arrived at Panama on the 5th instant. Freight valued at over half a million of dollars.

FROM CANADA.

MONTREAL, May 29

The address to the Governor General to remove the seat of Government to Quebec and Toronto, to be alternately held at each city four years, was carried by the necessary majority. The city continues tranquil

A Foreign Market for American Breadstuffs.—The Daily Courier, of Buffalo, after specifying our immense exports of Breadstuffs for 1848, pertinently says:

"Suppose the English market to be cut off to-morrow by the enactment of a high tariff. What would be the consequence? The vast amounts of produce now seeking a foreign market would be retained here. This would depress prices to a ruinous point, while these 'lords of the loom,' these patriotic manufacturers could buy cheap and pay in goods at prices twenty or thirty per cent higher. Is there any thing plainer than this? Yet these tariff advocates have the impudence to propose to the farming and commercial or shipping interests of the country to abandon the markets of the world for the benefit of our manufacturing interest! The project is both preposterous and wicked, and it seems unnatural to us that any man, having an interest in trade or property at such an advantageous commercial point as our city, can listen for a moment to it, far less endorse or advocate it. There can be but few who do so, and fortunately for the reputation of the American people, those are already found to be in a small minority, and still declining."

Of course, if we desire to sell to England, we must buy of her—she cannot pay specie for her imports to any great extent, much more than we can.

The Balance of Power in Congress.—The whig papers, like drowning men, are catching at straws to save them from the political wreck to which they are fast being driven.—Finding that the *whig party proper* is likely to be in a minority in the House of Representatives, they are trying to figure up a majority by counting the *free soil whigs* as probable supporters of the Taylor dynasty! In view of this calculation the Pennsylvanian well exclaims:

To what render mercies the new administration is committed by its eager friends! At the head of these Free soilers, is Giddings, whom the Baltimore Patriot, a Southern paper, boldly claims as a Taylor Whig—Giddings, whose assaults upon Taylor are so fresh in all men's minds, even since the adjournment of the XXXth Congress! The others who are lugged in to make up the estimated Taylor majority in the House, are Allen, from the Vth District, Massachusetts, who stumped it against Taylor last year—denounced him in the National Convention—and finally defeated Hudson, the regular whig candidate in his district for Congress—Palfrey, of the IVth District, in the same State, who was active in his hostility to Taylor. Root, of Ohio, one of the boldest and bitterest Van Buren Free soilers in the country—together with several more not quite so prominent in the anti-Taylor defection, but equally well known to the country. These are the materials that make up a whig calculation of a Taylor majority in the next House of Representatives.

Money Market—Gold from California.—While there is great complaint, of the scarcity of money in all parts of the West, it appears that in New York, and in all the eastern cities, capital is abundant, and is seeking investment at legal rate of interest. We do not suppose that money will become any more abundant in this section, until a new crop shall give our farmers the means of putting money in circulation, by selling their surplus produce. The growing crops now give evidence of an abundant harvest.

We are inclined that money will soon become more abundant, and the rate of interest lower, than it now is in the eastern cities.—Between this and the 1st August, a large sum will be paid into the hands of capitalists in the shape of dividends on government, State and Railroad stocks. Should the gold from California continue to arrive as is expected, the rate of interest must recede considerably.—These causes will operate favorably for the construction of our newly projected railroads in the West, and for all other legitimate and industrial commercial pursuits.—*Toledo Republican.*

HORRIBLE ATTEMPT TO DESTROY A FAMILY.—Yesterday, one of the boldest attempts was made to destroy the life of Mr. Thomas Warner and his entire family, that is on record since the days of the infernal machine.

The circumstances of the case are these:—While Mr. Warner was absent on Thursday evening, at Philadelphia, a colored man or a person disguised as such, called at his residence, No. 18, City Hall Place, and left a package done up in a newspaper, and directed to him, and marked *confidential*. The package was laid away to remain until he returned although Mrs. Warner attempted to open it, but left it, not being able to open it without some difficulty. On Mr. Warner's return yesterday, he was informed of the fact and it was brought to him. He was at that moment in great haste, but took off the paper, and found a box handsomely finished with a sliding lid.

His suspicions, however, had been aroused by the circumstances under which the article had been left. Proceeding to draw off the lid, he saw a light blue smoke arising from the box. He instantly dropped the box on the table, and hurried his family out of the room. Scarcely had he done so, when the most terrific explosion ensued, that burst through the partition wall, broke the windows, and shattered the furniture. Slung shot, slugs and bullets were found lodged in the sides of the room and furniture. As soon as the explosion had occurred, Mr. Warner returned to the room, and found a paural canister, which had probably contained the powder that had produced the fearful destruction. A reward of $500 has been offered by Mr. Warner.—*N. Y. Journal of Commerce.*

☞ John Ferris has been appointed Postmaster at Lawrenceburgh, Indiana, vice Wallace C. Law, *removed*. Mr. Law served his country bravely in the war with Mexico, and *lost one of his arms by a cannon ball at the battle of Buena Vista.* Of course this disqualifies him—takes away the "essential prerequisite."

AUGUST ELECTION.

FOR LEGISLATURE,
OCHMIG BIRD.

COUNTY COMMISSIONER, 2D DISTRICT,
WILLIAM ROBINSON.

We are desired to announce the name of JAMES S. HAMILTON, as a candidate for reelection as County Commissioner.

We would earnestly advise all who are afflicted with dropsy, gravel, or any disease of the kidneys, to resort at once to Dr. Vaughn's Vegetable Lithontriptic Mixture. The Great American Remedy has singular properties. We happen to know of a case of dropsy which was most unsuccessfully treated by one of the first physicians of Boston, one of them almost the oldest practicioner in U., and the friends took hold of the matter with Vaughn's Lithontriptic and effected a cure. The opponents of "quackery" may cry as loud as they please, give us quackery of Vaughn's article to which we refer its fruits. Seriously, we are tired of this humbug which surrounds the medical profession of the present day; here is an article, this very medicine we speak of, taking case after case and curing them when they're professed to have exhausted all their lore, and did nothing, and yet would make the public think such an article as this Lithontriptic has no virtue.—Reader put forth your faith in Vaughn's article, send for a pamphlet, &c., call upon Agents—under advertisement of Great American Remedy in our paper.

Stoves. Stoves. Stoves!

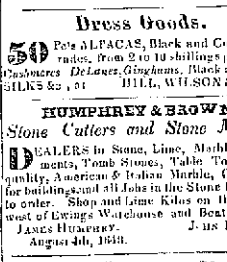
...THE latest styles and most improved patterns in the way of HOT AIR COOKING STOVES, are now arriving at the Old Stand.

SIGN OF THE PAD LOCK.

From the following descriptions it will be seen that exertion on the proprietor of this establishment is constantly making to supply the public with the latest improvements in the line of his business.

He now offers for sale the splendid 4 Boiler

Niagara Hot Air Cooking STOVE.



Warranted to economise fifty per cent in the amount of fuel it uses, and the time it takes to boil or bake, over any other stove in use in this or any other country.

The next is the cameoman's patent of 3 Boiler

Niagara Hot Air Cooking Stove,

which takes in nearly three feet wood, with all the advantages of the other. (See plate above.

These Stoves took the first premium at a recent fair of the Erie County agricultural society, New York.

NEXT come the good old EMPIRE HOT AIR COOKING STOVE, which is so well known in this country, *with two ovens*, one being portable. Also, the

Hathaway Hot Air Cooking Stove,

the excellent qualities of which will be readily testified to, by a number of families in Fort Wayne, who have them in use,—the proprietor's own family being one of that number. The next is another new stove called the

Knickerbacker Hot Air,

which is now having a great run in the East, and no doubt will run quite as fastest West, as soon as its economic qualities understood.

Then comes the Premium Cooking Stoves all sizes;

The Nonconsuming Hot Air Parlor Stoves;
The Ten and Seven Plate Stoves;

All of them are made of the best and heaviest Castings, and are

Warranted to stand fire.

without breaking.

After these comes the *Russia Sheet Iron Parlor Office Stoves*, made to order, any size that may be wanted.

...I Would inform the world that I have a Remedy for curing or healing Ruptures, without any pain in the operation, and without even seeing the place thus ruptured. Some of the wise and learned may laugh and scorn at the proposition, but don't be too fast, this is no new fiction my father has practiced the Remedy over forty years in the East, and I have cured three persons myself. I give this to the public, because I believe it to be my duty to do all the good I can to my fellows. WM. IBA.

And I would also request editors of papers in the Country to make a short paragraph of the above in their sheets, and by so doing they will confer a blessing on some of their patrons.

He has about 30 different instruments for extracting, which enables him to take out teeth with less pain and more safety than the usual method. Price of extracting, 25 to 50 cents for each tooth or separate root. Office over J. B Sheaff's Drug Store, and under the Odd Fellows Hall, on Calhoun street. Expense of the operations made known before operating, when desired. Work warranted.
